CHURCH LEADER MUST DIE

Decision Handed Down by Russian Executive Committee

ARCHBISHOP WILL BE SPARED

Catholic Chief Sent to Prison for Ten Years

(By JOHN GRAUDENZ)

MOSCOW.—(United Press)—Vicar-General Budkevich, a leader of the Catholic church in Russia, must die for resistance against the Bolshevik system.

The life of Archbishop Zepplak will be spared.

These were the official decisions of the all-Russian executive committee today regarding appeals made throughout the entire world—and joined in by the United States against the conviction of Catholic prelates by a Russian court.

The sentence of Archbishop Zepplak is commuted to ten years' imprisonment.

The vicar-general is guilty of high treason against the state because he conceived "with enemies of the state" while Russia was at war with Poland.

"Since Zepplak and Budkevich acted against the law and sponsored revolution, the verdict of the court could not have been different," the decision stated.

ATTITUDE TOWARD CHURCH

"But inasmuch as the Catholic church has been suppressed during the czarist and Kerensky regimes and it should not be assumed that the soviet government intends to continue the same policy, the sentence of Archbishop Zepplak is here commuted to ten years' imprisonment."

Regarding Vicar-General Budkevich, however, the crime is too great, because it was shown he was in direct communication with the enemies of the soviet government. This is high treason against the government and therefore the appeal made in his behalf must be refused."

The action was taken following appeals from governments and organizations of power in the world, who protested against the action of the Russian court. The general impression had been that the life of the archbishop would be spared, and there was little thought that the pardon committee would stand by the death sentence against the Vicar-general, who acts under him.

The pressure brought against the Russian government was entirely from the outside, because there is little interest in the cases inside the country.

A half dozen other priests received sentences of lesser magnitude for other acts against the government. It had been charged that they resisted attempt of requisitioning sacred church property in accordance with the Bolshevik system.

17 CONVICTED

Archbishop Zepplak and Monsignor Budkevich, together with fifteen Catholic priests were found guilty by the Moscow court on Monday. They were condemned to death. The sentence of death was imposed on the archbishop and the vicar-general, but a stay of execution was ordered by the central executive committee. The other priests were sentenced to prison terms.

Announcement of the death sentence brought an immediate reaction in various parts of the world. The American state department undertook to inform the soviet government thru Ambassador Houghton at Berlin that the United States earnestly hoped the executions might not take place. Pope Pius requested that the prelates be liberated on the ground that they were his subjects, while Premier Sikorski of Poland, acting almost immediately upon receipt of the news from Moscow informed the soviet minister to Poland that the Polish government condemned the court's action.

The British government also let it be known that it was doing its best to prevent the executions and several members of the British parliament appealed to Foreign Minister Tschirchner.

OFFICERS ELECTED BY OHIO COLLEGE PRESIDENTS

COLUMBUS.—Charles E. Howe, Case, was elected president of the Association of Ohio College Presidents, and Deans in session here.

Dean William Smyser of Ohio Wesleyan, was elected vice-president and Dean Alice Hill Bryne of Western College for Women, Oxford, secretary treasurer.

Increased tuition fees for Ohio colleges were recommended by President Hughes of Miami.

He also advocated basing tuition fees upon a scale determined by academic standards, students with generally low scholastic grades paying more than those standing high academically.

FOUR DROWNED
WILMINGTON, N. C.—Four died for their lives and five others are in a hospital here today, suffering from exposure as a result of the capsizing of the tug Julian J. Bluestone, in Albemarle Sound yesterday, during a high gale.

BUS BILL MAY HIT SNAG IN HOUSE

Lower Branch of Ohio Assembly Opposes Regulatory Measure

CARRIES LARGE TAX BOOST

Fees for Passenger Autos Not Materially Affected

COLUMBUS.—(Associated Press)—The house of representatives today was expected to make known its decision as to whether it would concur in the much revised motor bus and truck line regulatory bill as passed by the senate or whether the measure would be sent to conference committee in an attempt to iron out differences of opinion said to exist.

The Freeman bill, passed by the house last week, was merged with the measure of Senator Collister when it reached the senate and the composite bill which considerably increases taxes imposed upon bus and truck lines as compared with the house measure, and makes the basis for license tag fee for all automobiles weight instead of horsepower as is now the case, was approved by the upper house yesterday.

HOUSE SENTIMENT

Sam Oliveras, shown in the picture, was arrested at Fresno, Calif., for violating the dry law. When freed, he inserted the advertisement above in the local paper—and acted accordingly. He's taking other Italians with him.

TAG CASE MAY BE APPEALED

Decision Affecting Auto Licenses Likely to be Attacked

COLUMBUS.—(Associated Press)—Complete reorganization of the present system of issuing automobile license tags was viewed as possibility today following the ruling of Attorney General Crabbe that branch offices of the state automobile department, thru which the tags have been issued, have no status under the law.

The attorney general made the ruling at the request of State Auditor Tracy, following the alleged discovery by state inspectors of a shortage in one of the branch offices conducted under former Secretary of State Harvey C. Smith. The attorney general also ruled that the secretary of state is liable under his bond for any such shortages.

Various automobile organizations in Ohio cities have acted as agents of the secretary of state, both under Secretary Smith and the incumbent, Thad H. Brown.

Brown today had not decided what action he would take as a result of the ruling but the suggestion was advanced in other quarters that the supreme court might be asked for an opinion by persons interested or the situation might be presented to the legislature in the hope that an amendment to the law which would sanction the branch offices could be rushed thru before adjournment.

Reports, which could not be confirmed, were to the effect that the shortage amounted to approximately \$10,000.

SEES BIG AID IN FABRICS BILL

Sheep Raisers Would be Benefited, Martz Believes

Sheep raisers should be benefited by the passage of the "Truth in Fabrics" bill now before the legislature in the opinion of Carson F. Martz, of the Allen-co Live Stock company.

"Anything that increases the demand for wool should, of course, react favorably upon the wool grower," Martz said. "Whether or not the bill will be of any permanent value I am not prepared to add," he added.

J. N. Patterson and son, of Lafayette, head the poultry raisers honor roll for February by securing an average of 12.3 eggs per hen in a flock of 275 hens. Mr. and Mrs. Jacob Schnepp of Bluffton, are the nearest competitors with an average of 10.2 eggs per hen.

Bath-tub farm bureau meets Tuesday night at Blue Lick. H. J. Ridge will tell the members how to prevent disease among chicks and will also speak on "Crop Rotation."

BUILDING BURNED

Many Victims Claimed By Crime Scavengers

(By EDWARD THIERRY)

NEW YORK.—(Special)—Organized blackmail, perhaps the weapon of a single gang, is considered a possible solution to a series of crimes having startling coincidences and culminating in the murder of Dorothy King, Broadway model.

Millions of dollars are secretly extorted, crime experts say, in blackmail plots that have wealthy men and women as victims. These conspirators are known sometimes as "crime scavengers."

Analysis of the possibilities of a series of notorious crimes having been in the hands of one organized band of blackmailers shows these cases as links in the chain:

MYSTERIOUS slaying of William Desmond Taylor, movie director, in Los Angeles a year ago last February.

KILLING of a sailor by Walter S. Ward, millionaire baker's son, near White Plains, N. Y., last May.

UNSAVED double murder of Rev. Edward W. Hall and Mrs. Eleanor Mills at New Brunswick, N. J., last September.

CHLOROFORMING of Mrs. Irene Schoellkopf, wealthy Buffalo woman, and \$520,000 jewel robbery in New York New Year's Eve.

MURDER by chloroform of Dorothy King and theft of \$15,000 worth of jewels in supposed plot to blackmail J. Kearsley Mitchell, son-in-law of E. T. Stotesbury, millionaire Morgan partner.

Blackmail persisted as an explanation of Taylor's murder. Walter Ward, whose release has been the subject of an investigation by Governor Smith, declared he killed his victim to save himself from a gang of three blackmailers who had already obtained \$80,000 and demanded \$75,000 more. In the New Brunswick case that Hall family's theory was that Rev. Hall and Mrs. Mills met death at the hands of a band of blackmailers and robbers.

The Schoolcraft robbery case, the only one that did not end in murder, is linked with both the Hall-Mills and the King cases. Chloroform was used to subdue both Mrs. Schoellkopf and Miss King; in the latter case it came from New Brunswick, scene of the Hall-Mills murder; and two men connected with the Schoellkopf case are said to have stayed later at the same New Brunswick hotel which employed a man who disappeared from the apartment house where Miss King lived.

Another coincidence is that Nelson Olcott is counsel for Mitchell, whose letters to Dorothy King are believed to have been sought by blackmailers; and his father, William M. K. Olcott, former district attorney, admits he was consulted by the Hall family in the New Brunswick double murder and is regarded as the "brains" that directed the attitude of the Hall family.

"I have had a theory that the same gang of blackmailers might have been involved in other crimes previous to the King murder," said Assistant District Attorney Ferdinand Pecora.

Pinkerton detectives say blackmailing of wealthy men and women has become one of the greatest crime menaces. Most of the cases they say, never come to light, although several months ago complaint was made to the district attorney's office that blackmailers had been active against many New York society women.

Edward S. Schwab, for 11 years postoffice inspector, says: "Many blackmail cases hinge on letters thru the mail, and postoffice inspectors have investigated some that run into amazing figures."

Chief Detective Edward Raines, assigned to the district attorney's office, says only a few blackmail cases a year get into the courts because most wealthy victims are willing to submit rather than face exposure, even the innocent. In 23 years of police work, he finds blackmail steadily increasing until late \$100,000 has been demanded in several cases, including that involving Mitchell.

Police Commissioner Enright's office is one of the few crime agencies that favors the robbery theory rather than blackmail in the Dorothy King case.

NEW SHIP PLANS
CONSIDERED

U. S. May Quit Line of Business Entirely

ST. AUGUSTINE, Fla.—(United Press)—A concrete plan to stop losses of the shipping board and stimulate the American merchant marine, will be taken up by the cabinet as soon as President Harding returns to Washington.

THE PLAN.—To be taken in view of the failure of the ship subsidy bill in the last congress—is to take

the government entirely out of the shipping business, it was learned today.

The government would sell its huge fleet of ships on the following conditions:

1—An agreement by private buyers to keep necessary routes of trade open.

2—Point out to buyers the routes most fertile in prospects which would not hurt trade at present.

3—Willingness of operators to develop new routes.

This plan is understood to have been prepared for submission to the cabinet and the shipping board after conference between Chairman Lasker of the board and the president.

Under his provisions, as outlined to the United Press, the government would retain its power to take over the ships in a war emergency.

Some arrangements being sought

to prevent undue losses to the buyers

of the ships are:

1. The government to grant a

subsidy to the operators.

2. The operators to pay a

portion of the cost of insurance.

3. The operators to pay a

portion of the cost of fuel.

4. The operators to pay a

portion of the cost of wages.

5. The operators to pay a

portion of the cost of supplies.

6. The operators to pay a

portion of the cost of insurance.

7. The operators to pay a

portion of the cost of insurance.

8. The operators to pay a

portion of the cost of insurance.

TOURISTS GIVEN WARNING

Automobile Driving Threatens Auto Industry, Forbes Says

WOULD AFFECT PROSPERITY

Some Great Expansion of Business if Not Crippled

(By B. C. FORBES)
NEW YORK—(Special)—One of our most important industries is threatened from an unusual source. Unless something effective is done to cut down the maiming of people by automobiles and to improve the manners of many automobile drivers then as sure as sun rises, laws will be passed which will not help the growth of the automobile industry, to put it mildly.

Why, in New York city alone, people are killed off at the rate of forty a month. In 1921 more than a thousand persons were killed every month by automobiles in this country and it is certain that the rate is a good deal worse now.

Anything calculated to hurt the automobile industry would gravely affect the prosperity of the country and, therefore, labor. I doubt whether the importance, the magnitude of the automobile industry of today is thoroughly grasped by the great majority of the public.

It is figured that the automobile industry, in one way or another, affords employment for 2,500,000 workers.

Some 5,000,000,000 gallons of gasoline will be consumed in the United States this year, largely by motor cars. The industry consumes about one-third of all the glass manufactured in America, almost one-fifth of our total copper production, more than a fifth of the country's consumption of tin; one-fourth of our total production of aluminum and so on.

Gradually, even rapidly, life and living in America are being turned to an automobile basis. That is to say, a larger and larger percentage of our total population are adopting living conditions which call for the keeping of an automobile. As a matter of fact, there are now in this country almost three cars for every four families.

And if you have noticed the opening of new residential sections here, there and everywhere throughout the country, you must have been struck by the fact that even the more humble homes are now provided with a garage.

All talk about the automobile industry approaching the "saturation point," is to my mind, ridiculous. I believe that the growth of the industry will be greater during the next twenty years than it has been during the last twenty years.

But the industry will not enjoy its natural and proper growth if nothing be done to reduce the death and accidents caused by reckless drivers.

Why is it that so many persons who are polite and courteous enough when you meet them or when they are walking on the sidewalk, become positively rude the moment they get behind the steering wheel of an automobile?

They seem to think that, because they are in charge of a powerful piece of machinery, they can treat other people in most discourteous fashion. They act as if every one should hurry out of their way. Instead of slackening speed to allow a walker to get beyond the danger point, many motor car drivers honk their horns at the last moment and force the pedestrian to jump hasty either forwards or backwards.

It was natural that automobile drivers should be unpopular as a class when they consisted very largely of rich people. But now that the ownership of automobiles is seeping thru to all classes of people, the grounds for envy have been largely removed.

But unless many drivers of cars are taught to act with due consideration for other people, and cease to lord it over pedestrians rudely and boastfully, public sentiment will become so aroused that legislation will be passed and enforced which cannot fail to cripple the normal expansion of the industry.

Oh yes, the people could hit back at automobile drivers very severely if they chose. Not only could speed laws be reduced to a few miles an hour, vitally reducing the usefulness of automobiles as time savers but, if ordinately heavy license taxes could be imposed, gasoline could be taxed heavily, making streets and roads costly to drive on. In short, there is no limit to the handicap, the damage, the destruction an increased public could inflict upon the automobile industry.

I have been driving an automobile for more than a dozen years and I have often been annoyed by the arrogance exhibited by pedestrians who show a little courtesy. Clearly, the public has ceased to expect the most ordinary politeness from automobile drivers.

What are we going to do about it?

The lead ought to be taken up by those who derive their living from the industry. Unless they can do something worth while towards solving the problem, the public surely will, and by deal the industry a crippling blow.

And that would be a calamity for all business in the country, including business and others who may not derive a share of the profits.

MICHAEL'S WEDDING

GIFT

BY E. PHILLIPS OPPENHEIM
Copyright 1922, by E. Phillips Oppenheim
TARENT, N.Y.A. Service, Inc.

JANET

SAYERS begins between criminal, MICHAEL SAYERS, noted criminal, and NORMAN GREVES, once of Scotland Yard, when Sayers' beautiful wife, Janet, runs from Sir Norman by shooting dead an officer sent to arrest him. Janet becomes Sayers' wife and accomplice.

Greves follows her to Marseilles, where a confederate of Sayers, named Louis Martin, is jealous of Janet and plots against her. Greves, following her, is waylaid and beaten, loses his place of residence in Marseilles. It develops that Sayers has eluded his pursuers by disguising himself as a woman, and has been living at the residence Greves reaches Michael's hiding place just in time to rescue Janet. He is wounded by a shot from Sayers' revolver. Sayers escapes.

For many months after my somewhat inglorious escape from the cafe of Madame Podadour in the Maritime Quarter of Marseilles, I lived in the Foret du Dom, on the far side of Hyeres, the life of a dog. There were three of us woodmen in the hut—Pierre, Jacques and myself.

Solitude more complete than that which I shared with these two men I have never imagined. I read the newspapers, which we obtained with difficulty from the neighboring village—road of myself as the most notorious criminal at large, read of all the world-famed detectives of London, Paris and New York who had sworn to effect my capture, read of my crimes, my darling, my cunning, read of all these things outside my shanty on the hillside—and smiled. Given a certain amount of resignation and patience, and I knew very well that I was safe as long as I chose.

One day a chance incident set me thinking. We had paused for a second to fill our pipes with filthy tobacco, barely a dozen yards round one of the hairpin corners of the forest road, leaving our wagons, as usual, in the middle of the thoroughfare. Suddenly a car swung round the corner, traveling too fast for the driver to apply his brakes with safety. With great skill he passed us, grazing the long trunks of the felled trees and escaping the precipice by a matter of inches. That night I saw that Pierre and Jacques drank more than their usual share of the sour wine, and afterward I propounded my scheme.

"Comrades," I said, "it is a dog's life we lead."

They growled assent.

"Today," I continued, "an idea came to me. If our wagons had been an inch or two nearer the outside corner of the road, or the man in the automobile a shade less skillful, he could not possibly have escaped. His automobile would have been smashed, and he would have gone over the edge of the precipice."

They made strange noises in their throats and continued to listen.

"It is a dog's life, this," I repeated. "What we need, to make things endurable, is money—money, so that you two can go down to the cafe at the foot of the hill and drink brandy with the daughters of the village, who leave you now so unkindly alone because you have nothing to spend upon them."

Their pipes were out of their mouths now, listening intently.

"A man like that one today would have money—a pocketbook. Whilst he was unconscious, look you, we would take it. One of us would bring it up here, here where there are a hundred hiding-places, in the ground, the trees, the cracks of the earth. A pocketbook which is lost, is lost. What do you say, comrades?"

There was no doubt about how the scheme appealed to them.

"It would be an equal share between the three," Pierre urged.

"Between the three," I agreed. "Leave the details to me."

We went to our work the next morning with a new zest. All the time that we were at work in the forest we were thinking of what fortune might have in store for us on our homeward crawl. We crawled round each corner, loitering at the psychological spot always with the same evil hope in our hearts.

The affair, however, was not so easy. Sometimes we were soon from above or below; sometimes drivers were too careful. On the fourth day, however, success rewarded our perseverance. A small automobile which I had spotted from a distance came round the corner where we were, so to speak, anchored, driven with that full measure of recklessness which only a Frenchman, anxious to have his engine, can obtain. There was a wild cry from the driver, a crash into our wagon, and over went the automobile and man down the side of the precipice.

It was I who clambered down to where our victim was lying, and drew a pleasing-looking black pocketbook from the inside of his coat. Afterward I felt his heart, and discovered that he was alive. I ordered Pierre to move the wagons over to our own side of the road, and we secreted the pocketbook among the logs we were carrying. Presently a public touring car from Cannes, on its way to Hyeres, arrived. The accident was explained; money was made for the injured man; and a liberal pourboire was given to all collected among the passengers. We then made our way home, and later on, when we had lighted our evening fire, we opened the pocketbook. I divided the money into three portions, but I spoke to them as a master.

"Listen, Jacques, and you, Pierre," I said. "I am a man of justice, but altho I am one of you, I have traveled beyond these forests, and I know the world. If you take this money with you to the village tonight, you will be drunk, the truth will be known and we shall go to prison, I will swear to you the woodcutters' oath, the oath before the flames, that your share shall be saved. But go to the village tonight with 20 francs each, a pourboire given us by the Englishmen, and let me keep the rest of the, or hide it for yourselves." They had just sufficient wit to know that I was their superior in justice and that my advice was good. So we growled an oath in the dialect of those parts, and their grunted and knotted which reminded me always of the traps we fell into, past adventure, engineered

Poultry Clubs Are Forming

Two Communities Take up Work for First Time

Four communities in Allen Co. are taking up poultry work for the first time. County Agent H. J. Ridge, of Huron, Friday. The work is open to boys and girls from the ages of 10 to 12. Each entrant is required to net 50 eggs or to buy 45 one day old chicks. Each community will organize its own club and elect its own officers who will conduct the business of the club. Entrants are required to hold six meetings dur-

ing the year, in which the progress of each one will be discussed and practical suggestions offered.

Each entrant is required to keep a record of the cost of the project and to exhibit in the fall a trio of chickens from the hatch—one cockerel and two pullets. Awards will be made on the basis of quality of chicks exhibited, the total number reared and the percentage reared successfully.

Leaders of the project in Amanda are Mrs. Sherman Sibley and Mrs. Ed Steinbrook. The leader in Huron is announced as Homer Thomas; in Monroe, A. R. Werking and in Jackson, Paul Long.

This project to raise the standards of poultry raising will be taken up in other communities, Ridge stated, if leaders can be found interested enough in the work to get members in the community to start on the demonstration.

—H. H. Schaffner of Schaffner

Bros. brokers and beef packers of Erie, Pa., was in Lima Friday to inspect cattle owned by several Allen Co. farmers.

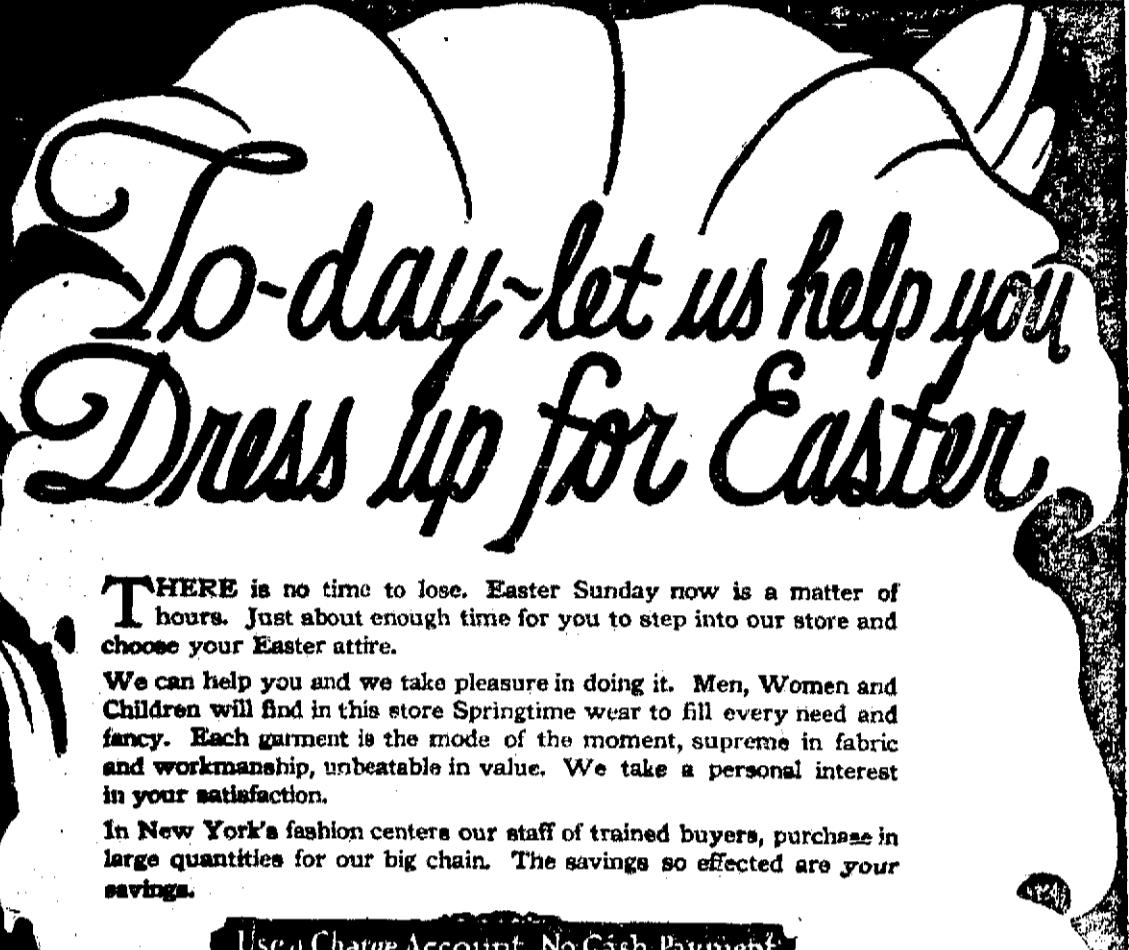

HEIR IN R. B. GORDON ESTATE RESIDES HERE

Gordon Bashore of Lima is named as one of the heirs of the late R. B. Gordon, of St. Marys, former congressman and for years sergeant at arms in the national house of representatives.

Gordon, who died in Washington on January 3, left an estate which totals \$123,577.85. He left no will. The Lima heir is a nephew of the deceased.

Sautoirs

Often Mistaken for Carved Ivory

You see them worn with dark frocks.

You've probably noticed the genuine ivory—only to find them away out of reach.

These of carved bone, depending from round black silk cords, have the desired ivory tint—they "take" carving quite as delicately—they're in the same full-blown rose and fantastic stag designs.

Gloves
for
Easter

To complete that Easter Costume one must have a new pair of gloves. We have just augmented our large display of popular makes with some new 12 and 16-button length French Kid Gloves. They come in all the desirable shades. SILK GAUNTLETS are also popular—their tucks, frills and embroidered cuffs make them doubly attractive. Our glove prices 65¢ to \$10.50.

Petticoats

Petibockers

\$3.98

The petticoats are of good jersey silk with pleated flounce, prettily trimmed with Paisley design.

The Jersey pettibockers have double elastic cuffs or pleated and seamed cuffs. Colors include black, navy, hounds, tan, emerald, and emerald.

FARMERS ADOPT COST RECORD

Corn Growers Have Means of Knowing Their Expense

CORN AND HOG PRICES GROW

Mixture Acts as Poison, Repellent and Fertilizer

Allen-co farmers will have every opportunity this year for determining exactly what it costs them to raise each bushel of corn, says R. J. Ridge, of the Allen-co Farm Bureau. Blanks for the record of cost production are now in the office of the county agent and may be procured by any farmer desiring them.

Information received in the Farm Bureau office from the extension service of the state university indicates that in 1922 corn again became a paying crop for most Ohio farmers. The university bases its conclusion on records supplied by farmers who kept cost amounts of their corn crop, in cooperation with the university.

Interesting figures are cited telling the experience of 48 Green-co farmers who worked their farms on a cost accounting basis in 1922. The cost of raising corn last year averaged 40 cents per bushel, of which 20 cents was a farm charge. The farmers who raised the smallest yield, an average of nine bushels per acre, had a higher bushel-expense than those of better yields. Economists explain that higher production insures lower unit cost.

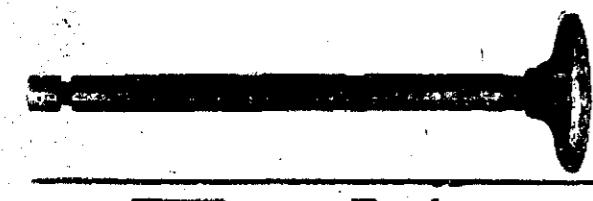

Corn and hog prices are now approaching the natural ratios. Ridge states, the condition in which 11 bushels of corn are the equivalent of 100 pounds of hogs. A year ago it required 18 bushels of corn to equal 100 pounds.

A mixture that acts simultaneously as a poison, repellent and fertilizer, has been developed by the Ohio experiment station, in its efforts to control the striped cucumber beetle, according to information received in the local Farm Bureau office.

The mixture is composed of one part of calcium arsenite and 20 parts of land plaster and is applied to the young plants in the form of dry dust. Ten or twelve applications each season are required.

FROM SYDNEY CARTON
BACHELOR TO HIS EN-
GAGED FRIEND, JOHN AL-
DEN PRESCOTT

I hope you have been more suc-
cessful than I, Jack, old man.

I think, however, you made a mis-
take in going back to obtain those
letters. I'm almost sure that the
old man, Leslie's father, suspected
that there is a hole somewhere in
the importance of that business
proposition. We will be sure some-
day to find out. Right here, let me
tell you that I have hard work to
do. Leslie from writing a letter to
our firm, telling them she didn't
think they were very nice to send
for you. If she had done this the
fat would have been in the fire.

Nowhere, I have an indistinct
recollection of someone saying we
weave very tangled webs when we
begin the ugly pattern of deception.

I think you're all wrong about the
little Perier. I mean going back to
get those letters. In the first place,
she will attach a great deal more
importance to them than they de-
serve if they contain nothing more
than you have told me.

I like your Leslie, John, and I be-
lieve if I were standing in your
shoes I would promptly go down on
my knees and, telling her the whole
story, ask her to forgive me.

Women like to forgive, John, it is
about the only time in a woman's
life that she can exercise the abso-
lutely super-human quality of maxi-
mumity. It is a virtue that hu-

man's nostrils or be seen by any passerby.
I did not dream that any two people
would seat themselves on the
other side of it for a consternation,
chat and when, to my consternation,
a clown and columbine came strolling
by and sat down there, I just
drew myself into as small a space
as possible and waited, as I thought
they would not stay very long.

The clown was speaking and I
heard him say — "Yes, it is al-
ways so. Columbine goes dancing
away into the arms of the other man
and the poor clown must hide his
breaking heart under his sorry jest
and smile; for his is the business of
making others happy—it matters not
that his soul is bowed with grief
and sadness."

The girl's voice trembled and I
knew it was Leslie. And then it
came over me that the clown was
Karl Whitney and he had taken this
way of telling her that he was
broken-hearted at her marriage.

"Probably the girl is not worth the
blotting out of one of the clown's
smiles," she said, and then she
whispered as almost to herself —
"It's a sad little story, isn't it—that
story that is told in, almost every
language of Pierrot and Pierette, or
the Clown and Columbine. Do you
know, Mr. Clown, I've always felt
sorry for the girl than for the man,
but if you will remember, she lived
to find her love a sham while he
could keep its illusion always in his
heart. It was a dream, a beautiful
dream, from which he never awak-
ened."

The clown got up roughly, it al-
most seemed to me that he could
stand no more. Neither of these
two people had formally disclosed
his or her identity to the other, but
I had been listening to the service
over the burial of love and I confess
when I thought of you perhaps look-
ing over a glass of champagne at

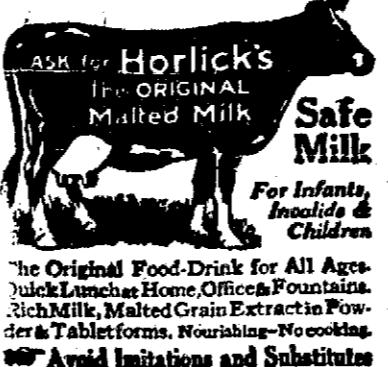

the little Perier and trying to be-
guile her into giving you the evi-
dence of former follies, I wasn't
proud of you.

There, boy, it is always the pre-
rogative of a real friend to say
harsh things. Come on, marry your
little princess and become a decent
member of society, raise a family
and live happy ever after.

Your friend,

SYD.

MR. WILLIAM T. GRANT,
President of Grant Chain.

An Amazing Development

Astounding Story of How W. T. Grant Laid a Solid Foundation and Built Up a Wonderful Business Institution.

An amazing story of business development, an astounding tale of progressive accomplishment, a romantic record of almost superhuman achievement is interwoven in the history of the success of William T. Grant and the business venture that bears his name.

Mr. Grant is a man, who while he radiates energy, and by his very presence seems to assure success, is yet unassuming and rather retiring in his tastes. He

can do great things and he does great things, but those who visit with him and talk to him find him a man of extreme modesty and unaffected bearing. He prefers not to talk about himself and he does not seem to regard his tremendous accomplishment as anything particularly worthy of comment. He has often said that he did only what some one else would have done had he possessed the same opportunity.

The truth, however, is that Mr. Grant sensed a great need—a need for a better and more progressive merchandising—a need for the kind of merchandising that would bring the producer and user together and eliminate many of the unnecessary profits that result from a system of buying in small lots through middlemen. The result was the great chain of stores that now bear Mr. Grant's name—the latest one of which opens in Lima tomorrow as is told in another column.

Phenomenal Success

Less than twenty years ago Mr. Grant laid the foundation for the tremendous business that bears his name and his rise has been phenomenal. Perseverance, keen insight into the future, a careful and conservative policy of continual development

ENTRANCE TO LIMA'S NEW DEPARTMENT STORE 202 NORTH MAIN ST.

Lima women—and men, too, for that matter—will welcome the coming of the W. T. Grant Department Store to Lima, for in the opening of this fine and wonderfully complete establishment, a new era of profitable economy is ushered in for Lima people.

The Lima store of the W. T. Grant Company is one of a chain of fifty similar department stores located in the principal centers throughout the United States, and this fact alone is an assurance to the buyers of Lima that it will offer them bargains unprecedented. The enormous buying power which such an organization gives and the economical buying and management possible only under the chain store system make it absolutely certain that the people of Lima are to be offered

heretofore unheard-of opportunities to get the very best goods at the very lowest prices.

It has always been a Grant policy to be content with small profits and to pass on to the customer the benefits that result from the tremendous buying power they enjoy.

The store is the evolution of the business man's brain, his power of reasoning teaching him that people will buy advantageously when possible.

The new Grant store occupies a location in the heart of the retail business section. The store is absolutely new inside and it is filled from floor to ceiling—from cellar to roof—with one of the most diversified and complete stocks of dry goods and household goods to be found anywhere in the United States.

It may be said in very truth that the Grant store

is prepared to meet the needs of the purchaser whose taste is selective and whose knowledge of values is discriminating. Its display of dry goods and household supplies is not only extensive but it is well assorted and carefully chosen as well. In fact, the store offers its customers quality goods at quantity prices.

In this new store, astonishing values are obtained at prices ranging from 25 cents to \$1.00.

The W. T. Grant store is a real department store, with a minimum price. It invites the inspection of its wonderfully equipped store, on Saturday. Everybody is welcome. The invitation is to the public in general.

The W. T. Grant Company, in addition to supplying the highest grade merchandise at the lowest price, specializes in courtesy, attention, and intelligence. Those who visit the store can be assured of prompt, individual attention and satisfactory service.

THE LIMA STORE

Light, airy, ideally located, equipped with every modern convenience known to up-to-date merchandising, and noted for its elegant appointments, its costly fittings, and its luxurious appointments, the W. T. Grant Store is a perfect home for the 20 departments which make up the complete store—one of the most comprehensive to be found anywhere in the State of Ohio.

All departments in the store are conveniently located and the floor plan has been so arranged that the shopper goes naturally from one department to another without loss of time.

It would be impossible in an article of this kind to describe fully each department and the full stock it carries. To those who want this complete information the writer would suggest a careful study of the advertisements in this issue and a visit to the store. In a general way, however, it can be said the stock is one designed to meet the needs of all. Among the articles particularly designed to meet the needs of women are articles of clothing and novelties. In the way of hose, stockings, perfume, cosmetics, knitted underwear of winter and summer weight, jewelry, novelty earrings, beads, chains, ribbons, lace, hair goods, including hats, switches, transformations and preparations for the care of the hair, and a complete stock of the best manufactured notions of all kinds.

For the Men

For the men there is also a complete line of furnishings, such as cuff links, mufflers, underwear, etc., and all kinds of apparel for boys, including the most substantial makes of trousers, waistcoats, caps, etc.

In the men's department the tool and hardware stock occupies a considerable space. Here will be found many household implements, as well

as a complete line of mechanics' hardware and tools, offered at prices up to \$1.00. These goods are the output of leading factories, sold to the Grant chain of stores as unbred merchandise. The same article, if stamped, would often bring double the price.

Passing rapidly from counter to counter, the visitor to the W. T. Grant Store will find everything imaginable in the house furnishing line, including cutlery, enameled ware, curtain rods, fixtures, shoe scrapers, door mats, brooms, mops, pails, electrical fixtures shown in wide variety of design and color, shoe findings, paints and varnishes, art goods; including stamped articles for embroidery; silks and yarns, cotton print, a stock of fabrics for draperies and decorative purposes, embroidery silks and yard goods, dresses, in every variety of cotton prints.

The values in all parts of the store are exceptional, but nowhere more so than in the infant and children's department. Dainty attire for the baby, in the most fashionable cut and style, will be found on sale at prices that will astonish. "We clothe the infant from top to toe at a price within the reach of every pocketbook," says a trade legend of this department.

The W. T. Grant chain of stores often receive the entire output of one or more factories, which accounts for the astonishing values offered to the public. Purchases in other lines are made in carloads lots, and to the public is given the benefit of low prices secured in this way.

Reference to the millinery department has been reserved for the very last of this article for two reasons. The first is because every Grant store in every city is famous for its millinery and the second is that the millinery department is the only one not bound by the arbitrary price limits of 25 cents minimum and one dollar maximum.

It is easily apparent that it would be practically impossible to make trim hats for these prices. Many modern hats for women and girls, made of serviceable and stylish materials, will be found on sale for \$1.00.

The Newest Lima Enterprise Will Devote Its Energies to Handling Goods Valued at From 25c to \$1.00

The W. T. Grant Department Store, one of the very latest and most progressive departures in merchandising enterprise, will open its doors to the purchasing public of Lima Saturday morning at 9 o'clock.

Lima people will find it a revelation. In the extent of the stock, in the variety of goods displayed, on its shelves and in the uniform courtesy and ability of its employees, the store guarantees to reach the very highest point obtainable.

The opening of the W. T. Grant Department Store, carrying a large and selected stock of merchandise, at popular prices, will be an event in Lima's retail history. It will mark an epoch, so to speak, in the story of Lima merchandising. It will put another notch in the record of achievement.

When the W. T. Grant Department Store opens its doors it will undoubtedly be welcomed by one of the biggest crowds ever assembled for a like event in Lima. This is evidenced by the numerous letters, telephone calls and other forms of enquiry being received daily at the store, all asking the same question, "When will the doors be opened?"

All of this is an indication that the people of Lima appreciate the enterprise which brought the store here and also seems an assurance that they will show their appreciation in a substantial way—that is by their patronage.

The Lima store of the monster W. T. Grant organization will positively be opened at the scheduled hours—Saturday at 9 A. M. In the meantime the handsomely decorated store windows, offering a display of articles and prices, appealing to the thrifty and discriminating purchaser, is attracting much attention and favorable comment, scores of people pausing before them to note the bargains.

A platoon of Lima policemen will be on hand the morning of the opening to prevent extreme congestion during the early hours. These officers will be assisted by trained "Grant men," who have had long experience in handling big crowds, who make it a point of attending openings like this, and other special sales at Grant stores.

HOW THE W. T. GRANT GOT ITS STORE READY

Labor Troubles Did Not Delay Getting Building in Readiness.

COUNTERS OF WALNUT

Convenient Shopping Facilities Provided for Customers.

The extensive changes made necessary in the building occupied by the W. T. Grant Store which will be opened Saturday morning at 9 o'clock, have been made by a corps of trained workmen of Lima, performing their tasks in a highly efficient manner under the supervision of Carl E. Davies, supervisor of installation of fixtures and structure of the W. T. Grant Company. Mr. Davies is justly proud of the appearance of the store, and is most appreciative of the energy and intelligence exhibited by the force of employees, who made the early completion of the building possible.

Labor Helped Grant

"At this time when labor disturbances are rife in all parts of the country, we feel particularly gratified that we can report harmony and efficiency in the force which has worked not only well, but with genuine interest in the store, to get ready for the opening day," states Mr. Davies. "As soon as our plans were made clear to the force they set to work with enthusiasm. The days were all too short in which to perfect changes and improvements, necessitating the closest attention to details, and the best possible use of working hours. The result is satisfactory to the management of the store, the representatives of the Grant company, and we hope to those men who have the gratification which comes from—a good job well done."

Counters of Walnut.

The interior of the store is arranged according to the special plan of the Grant stores. The woodwork of the counters and tables is of highly polished walnut, with counters and divisions of thick plateglass.

ALWAYS CHEERFUL AND EFFICIENT ARE GIRLS IN THE GRANT STORE

Real Welcome Greets Every Customer—Everything Done to Promote Welfare of Girls Behind Counters

One need only to look at the smiling countenances in the above picture to find out one of the big reasons for the success of Grant stores. Happiness, cheerfulness, and courtesy radiate from the entire store force and one cannot help becoming inoculated with these pleasant qualities when going through the store.

That "homely" atmosphere is exemplified by the Grant stores. A real down-to-earth, whole-hearted, honest-to-goodness welcome is accorded you immediately upon going in. Goods are taken down unceasingly and shown with a willingness, until the customer has decided upon any article desired. The same spirit reigns throughout the entire 30 departments, and strange indeed it would be, if one could not get utmost satisfaction from anything sold. Indeed, it is an impossibility since the Grant company's cast iron policy of standing behind their merchandise precludes such a thing as dissatisfaction. Goods to sell cannot be sold without the sales-force first selling the customer on their personalities and the Grant doctrine of "Service first." Too much tribute cannot be paid the Grant company's selling staff who aid so greatly in serving Lima's people.

GIRLS' WELFARE A FEATURE

Interest and joy would not be complete unless everything is done to promote the girls' welfare. This is the reason why a splendidly appointed rest-room is fitted up in which they might find comfort in their periods of relaxation. Com-

fortable furniture is provided comprising couches, rocking chairs, tables with magazines and potted plants, and other accessories so much desired by the particular girl. Here amidst quietness they may eat their lunches without interruption and depart the better to fulfill their mission of serving the public in the best way.

The timeclock is situated in the handiest position so that no girl's time is wasted in registering her presence.

PROMOTION SYSTEM

The merit system is carried out in promoting girls to higher positions. This means that seniority in work alone is not responsible for the rapid strides some girls make in climbing the ladder of success. High grade service is the factor that increases an employee's worth. In the case of two girls being equal in merit, naturally the senior in service is promoted first. This system not only causes enthusiastic work well done but increases the desire to "stick" with the company thus causing wealth of experienced girls to wait on the trade at all times. There is nothing that aids a buyer who is pressed for time more than to shop with a saleswoman who knows her business. Speed, accuracy, and satisfaction is assured at all times.

Grant girls are drilled in the art of displaying their wares. For instance, at the ribbon counter many fancy bows and draping effects are presented to you, so you can tell almost at a glance, what you need for your hat, wrist, or dress, to give it

that smart appearance. In the millinery department, many style hats are on display for the many types of women. Old or young folks can choose the headwear most suited to their fancy, to accentuate youngness or to modify the age of those who are getting "toughy" on the correctness of their age. The portion department girls present you the many articles in such a way as to remind you of the little things you are in need of. This department sells you the hosts of smaller items, which, trifling as they appear in size and price, are a dire necessity to every woman's needs. In the music department, the girls have on display the latest hits, as well as the standard numbers, so that the customers can recall quickly that favorite air of theirs which they intended to buy. The music is played on the piano for you correctly to demonstrate the melody. And so on down through the many departments. If Grant's have it, you may procure it in the easiest way and most important, at the very lowest price consistent with quality.

No girl is engaged by the Grant company unless she can measure up to the strictest qualifications, so necessary to render high-class service. They must pass several tests as to character, education, ambition, and many others in order that no undesirable element may be introduced to tear down the present substantial principles. The present sterling personnel of the Grant company must remain and shall as long as it is chosen with such particular care as it always has been.

Mr. L. E. Lull

Manager of Lima's New Store

The executive force for the store has been recruited from W. T. Grant stores in other cities. L. E. Lull, manager, came to Lima six weeks ago from the W. T. Grant store at Charleston, S. C., where he was manager. Mr. Lull supervised planning and arrangements of the local store and completed the work of opening it. He also was in charge of opening the W. T. Grant store at Charleston in 1920.

Mr. Lull began with W. T. Grant stores in New York eight years ago and served successively in Dayton, O.; Ft. Wayne, Ind.; Kalamazoo, Mich.; and Charleston.

Mr. Lull has been assisted at the opening by J. D. Scofield, assistant manager, from Eaton, O.; and Harry Keller, of Evansville, Ind., and Minot Morse, Bridgeport, Conn., floor managers.

Shoppers of Lima will have an opportunity beginning Saturday to gaze over 800 linear feet of 30 inch merchandise counters at the W. T. Grant store, devoted exclusively to the selling and showing of goods.

The W. T. Grant store has 7,500 square feet of space in its new store at Main and High—stays divided into thirty different departments. Construction began on the building January 1, and was continued without interruption. Friday the contrac-

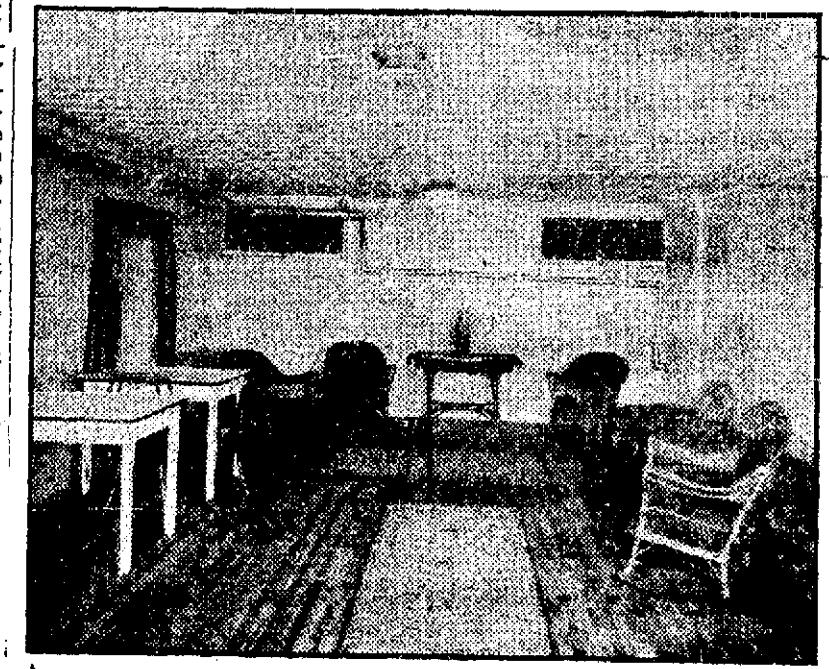

tors who have entirely remodeled and redecorated the interior, the painters and electricians call it a good job and quit. The store is ready.

The interior is entirely new. New floors have been put in, the ceiling has been paneled, and the walls painted. Handsome electrolights have been added to the lighting fixtures of the store room. The final work of installing 800 feet of counters and wall shelves sufficient to carry ample stocks of merchandise was completed Friday. Saturday the doors will open to the public for the first time.

A sales force of between 125 and 150 persons has been engaged by the W. T. Grant store. This force is composed of persons from Lima and includes all departments except the executive offices.

A handsome rest room for the employees has been built in the basement under the store room. The rest room includes a kitchen with equipment for cooking. It is designed for the special use of those girls who wish to eat lunch at the store.

The rest of the basement, as large as the store room above, is used as a stock room, where supplies of merchandise for the shelves and cases upstairs are carried.

W. T. GRANT COMPANY

Come
and See

Occupies a unique position in the merchandising world, in that there is no other establishment of its kind in America. Catering solely to the great cash buying public, supplying their needs with good, dependable merchandise and no article in the entire store (except Millinery) priced at more than \$1.00.

Our Immense Buying Power Makes It Possible

The entire output of hundreds of large factories is often not enough to supply our needs. We buy direct from manufacturer, thus eliminating the middleman profit. Factories supplying us are enabled to sell their entire output without cost of a selling campaign, which naturally enables us to sell at a lower price.

Special Training School For Managers

W. T. Grant managers must start at the bottom and work up under the tutorage of highly trained men who are nearly all young, between the ages of 25 and 30 years. To become a manager he must be a man of calibre, a merchant, capable of handling, displaying and selling merchandise, he must be a leader, capable of inspiring enthusiasm and loyalty, and he must be an executive, capable of planning and directing the work of others.

Careful Study of Local Needs

In every city the W. T. Grant Company places men who make a careful survey of the local market and the needs of everyone, thus we save the public again in that there is no merchandise bought for which there is no ready sale; in other words, we carry no dead stock.

Salesgirls Highly Trained

Loyalty, enthusiasm, neatness and willingness, that is the typical "Grant" girl. All carefully selected by one who has grown up in the Grant service and trained as only the Grant Company can. Everything possible is done to add to their comfort, to make them happy and contented.

50 Grant Stores All Nearly Alike

It makes no difference where you may be if it is a Grant store you feel perfectly at home, as everyone of our 50 stores are as near alike as possible as to the manner in which goods are displayed, table and shelf arrangement and in all you will find an assortment of good sensible merchandise, very low cash prices and happy, contented sales girls to wait upon you.

Company Maintains Real Estate Department

The company maintains a real estate department that has as its duty the making of leases and attending to all matters that come under that head.

MACK'S ATHLETICS LOOK LIKE TOUGH BUNCH TO BEAT

CONNIE, MACK AND SAMMY HALE

The addition of one ball player often makes a ball club. Connie Mack is hopeful that Sammy Hale will supply the winning punch to his team.

"A winning ball club must have a good infield," says Mack. "I am hopeful that Hale at third will end my worries."

"You can't build a major league club over night. I have experimented with hundreds of players since 1914. For the first time I have the feeling that most of my worries are over."

"We don't expect to win the American League pennant in 1923, but we do expect to have a lot to say as to who will win it."

LOCAL MAN TO START
WORK AT DANVILLE SOON

Don Rohr, Lima southpaw hurler leaves next week for Danville, Ill., where he will enter spring training with the Danville club of the Three Eye League. He had a good year in 1922 and with added weight should be able to go big in the league this year.

Rohr has been in training for the past several weeks and states that he is in fine condition.

ST. ROSE IS DEFEATED BY GERARD EIGHTH GRADERS

St. Gerard's eighth graders were visitors over the St. Rose eighth grade at Murphy-st Ball park by a 20 to 1 score, Thursday afternoon. Feldshake and Gerdean pitched fine ball for St. Gerards while McNamara and Cunningham of St. Rose experienced wild streaks. The two teams will meet again in the near future.

UNKNOWN PLAYER WINS FROM MOLLA MALLORY

CANNES, France — Mlle. Vlascos, well known Riviera tennis player but unknown outside of her own country, defeated Mrs. Molla Bjurstedt Mallory, 8-6, 9-7, as a climax to the American woman's four week's stay here. Mr. and Mrs. Mallory leave for the United States next Wednesday.

MORVICH TO GET NEW CHANCE TO DO COME-BACK

LEXINGTON, Ky. — Morvich, last year's Kentucky derby winner, who was retired after he went bad in mid-season, will be given another chance to redeem himself this year. Owner Ben Block announced here.

OLYMPIC MEN OF '24 TAKE PART IN MEET

CHICAGO — Men who will make up at least part of the American Olympic team in 1924, wore the colors of various athletic clubs in the Central Amateur Athletic Association meet here Friday evening.

It was doped out that the main fight for first place would be between the Chicago and Illinois athletic clubs.

FIRPO TO BOX JACK MCALIFFE ON MAY 12

NEW YORK — Luis Firpo, South American boxer, will meet Jack McAliffe, Detroit heavyweight on the same card with the bout between Jess Willard and Floyd Johnson here May 12.

HAGEN IS LEADING IN GOLF TOURNAMENT

PINEBURST, N. C.—Walter Hagen, New York, with a below par of 70, led the field of sixty contestants in the north and south championship tournament here for the first eighteen holes of play. Joe Kirkwood, Melbourne, was second with 71.

(BY MILLY EVANS) MONTGOMERY, Ala. — "How do you see the Athletics? How does Connie's team look?" In every training camp that I have visited those two questions have been fired at me.

All of which makes it seem that the other American League managers have considerable respect for Mack's protégés.

I have had a chance to look over Mack's athletes. I am convinced that the fears a number of clubs have for the strength of Mack's club are well founded.

The Athletics have gotten over the experimental stage. Mack hasn't

very far to go before he has a well-rounded ball club. Connie's team is certain to be a mighty troublesome aggregation on the American League circuit this year.

NEW PLAYERS

While one or two of the recruits may break up into the lineup very often, Connie undoubtedly has likely looking material.

Of the outfield recruits, "Wild" Matthews, last year with Milwaukee in the American Association, has the best chance to win himself a regular berth.

Matthews isn't a big fellow, being much more on the Wee Willie

Keeler type than the Babe Ruth model. He isn't going to establish any home-run records, but he is going to be on the bases a lot more than players who will hit 30 points more than he does.

The Milwaukee recruit is a left-handed hitter and thrower, and very fast. He is a hard man to pitch to and looks like an ideal leadoff man. He makes the pitcher get 'em over and then mixes things up.

The home-run germ hasn't hit him because he is far too light to ever win fame as a circuit clatter. Instead Matthews mixes a bunt or drag with an occasional healthy

swing, so that he always has the opposition guessing.

Sammy Hale, who cost Mack a lot of money, has been jinxed the greater part of the training trip.

A severe cold made him go slow at the start and just as he was rounding up into shape a spike wound laid him up for repairs.

HARD HITTER

Hale will round out Mack's infield with Galloway at short, Jimmy Dykes at second and Hauser at first.

OUTFIELD DOUBTFUL

For his outfield Mack has three veterans, Tilly Walker, Frank Welsh and Bing Miller, also three youngsters in McDowell, French and Matthews. The first three are right-handed batters, the latter trio left handers.

Hale will be drawn up with Perkins and Brugay back of the bat, which means that department will be taken care of, plus better than hold his own in that department. It looks as if Hale will be worth every cent Mack spent for him.

Hale will round out Mack's infield with Galloway at short, Jimmy Dykes at second and Hauser at first.

INDUSTRIAL BASEBALL IN LIMA

With Perkins and Brugay back of the bat, which means that department will be taken care of, plus better than the average pitching, which it seems that Mackmen should get, the Athletics look up as a mighty tough team to beat.

Ready For Hardwood Contest

TRAINING CAMP NEWS NOTES

Everything is in readiness Friday for the basketball game Saturday night between the L. E. & W. quintet of this city and the Robbins & Meyers outfit of Springfield, Ohio. The two teams are industrial league champions of the respective cities and this will be the first of a series of two out of three games for the championship.

RETURN GAME

A return game at Springfield has not been decided on but the two managers will probably decide it while the visitors are here Saturday night.

Lima's aggregation of leather torsos hung up a string of nine straight victories without a defeat for the past season. Springfield men have come out victorious in twelve straight.

The winners of the series will probably be matched with teams from Dayton, Columbus, and other places for the state industrial championship.

As a curtain-raiser attraction the Dossell-Wommer and Locomotive teams will play. The first game will be called at 7 o'clock.

MINNESOTA HIGHS IN BASKETBALL TOURNEY

MINNEAPOLIS, Minn. — Austin, Aurora, Rochester and Hancock high school basketball teams will battle in the final rounds of the Minnesota state championship tournament here this weekend. They have won their way to the final by defeating representative teams from all parts of the state.

OTHERS TO SOUTH

Wisconsin which also is expected to be a strong contender for "Big Ten" honors, will start a trip thru the south next week while Michigan always a dangerous entry for diamond honors, will invade Dixie for practice games April 6.

The Big Ten squads have been working indoors for several weeks and are well advanced in preliminary seasoning. Illinois is starting off with prospects bright for another championship season.

Coach Ray Fisher of the Michigan squad is training a promising array of talent. Liverence, a star pitcher last season, is expected to prove the mainstay of the hurlers.

About thirty candidates are fighting for positions on the University of Chicago team.

PADDOCK OUT TO BEAT OWN HUNDRED RECORD

PASADENA, Cal. — Charlie Paddock, world's champion sprinter, is going to try and beat his own record of nine and three fifths seconds for the hundred yard dash on the University of California field this week.

OXFORD YANKS WIN IN GOLF MATCHES

LONDON — F. M. Bacon, late of Harvard, and E. Pulling, formerly of Princeton, now attending Oxford, won two of the six matches which gave Oxford a victory over Cambridge in golf, 6 to 4.

BILLIARD TITLE TO BE CONTESTED AGAIN

CHICAGO — John Layton, El.

Louis, world's champion three cushion billiard player, and Angie Kickster, Chicago, former title holder,

will meet here Monday in the first

WORLD'S RECORDS MADE BROKEN IN A. B. C.

MILWAUKEE — (Associated Press) — The Nelson-Mitchells of Milwaukee head the team events in the tournament of the American Bowling Congress by virtue of the highest bowling score ever rolled in competition. The Clamans Dairy Lunch team of Indianapolis, Ind., held the same honor for thirty seconds last night. Finishing an eye-wink ahead of the Nelson-Mitchells, the Clamans no more than saw their brilliant 3,116, a new world's record, posted at the top of the five men events until it was dropped to second place by the Milwaukeeans 3,139.

The old record, 3,096, was set by the Brucks No. 1 of Chicago at Peoria, Ill., in 1920.

The sensational bowling came after three weeks of rather ordinary work on the alleys.

Mrs. M. A. Carr, box 585, tells about little Billie who was staying with his grandmother while his mother was up town. His grandmother placed a big red apple in his pocket and after thanking her Billie seemed to be in deep thought. "What's the trouble, honey?" he was asked. Billie sighed and replied, "Me dot annader pocket too."

Mrs. E. G. Boyd, Lafayette, tells that last fall a family with two daughters aged four and six moved to a new home. The children were very fond of cats, but did not have any in their new home.

One day they were out playing and spied two half grown kittens in the barnyard. They were wild with delight over the new possessions. In the course of a few days, when the children were preparing to accompany their parents to Lima, they proposed kissing the kittens good bye.

"I wouldn't do that, cats are dirty," the mother said. "O, let them alone," said the father. "I expect you have done now things than kiss a cat."

The smallest of the two children primed in with this, "Of course, daddy, she even kisses you sometimes, doesn't she?"

"A demonstrator called at a middle-aged woman's house," writes Stella L. Ellis, 522 S. West-st. "Before she had time to tell her line, the

woman asked, 'Are you saved?' The girl replied that she was. 'No you aren't or you wouldn't have all that paint on your face,' snapped the woman."

Raymond Horn, druggist, put up a prescription for a man who thrust the bottle into his trousers pocket. The cork came out on his way home and the prescription ran down into his shoe. "I felt so good to get the shoe off when I reached home," he says, "I forgot all about my ailment and was completely cured."

Bill Alexander, barber, put a pound parcel of butter in his overcoat pocket to take home. He had a hard time getting it out when he went home, he says, "on account of hanging the overcoat so near the radiator in the barber shop."

Director of Asylum "Guarantees"
Waifs for Adoption

DISCOVERS THEIR TALENTS

Measures Baby's Head—"He'll
be Lawyer," She Says

(BY ROY GIBBONS)

CHICAGO—(Special)—"Something
is in a baby today? Ah, yes!
What would you prefer—boy or
girl?"

"Here's a bright little fellow
who'll be a banker when he grows
up. No! You'd rather have a mu-
sician? Well, just a moment then
and we'll look over today's selec-
tion."

This, in pantomime, is a near re-
production of what goes on in Chi-
cago's newest-style infant asylum
here called "The Cradle."

Provided you come with proper
credentials, a "guaranteed" found-
ling will be turned over to you for
adoption.

Artist, millionaire, butcher, cook
and baker-to-be, they're all on the
list waiting to be served out to
prospective foster-parents.

Run under auspices of wealthy
Gold Coast society women, "The
Cradle" is directly persided over by
Mrs. Mary Larsen.

Armed with calipers and other in-
struments to obtain precise mea-
surements of infants' heads, Mrs.
Larsen is said to be capable of fore-
casting the exact careers of her
many waif charges.

MARY AN ACHESS

Take Mary for example. She is
but three months old. But she has
characteristics for the theater and
will develop into a great star if
given half a chance, Mrs. Larsen
says.

While Baby Billy, who stares
right out at you with his big black
eyes, will be a lawyer some day in
the future. You can tell that by the
shape of his head and further by his
lusty, if youthful, stentorian voice.

Since "The Cradle" opened, more
tails for children have come in than
could be properly taken care of, at-
tendants say.

Each day luxuriously appointed
motors roll up before its door to
emit a fashionably dressed woman
who later emerges from the build-
ing carrying a baby with her.

CHEER FOR CHILDLESS

Such foster-motherhood is bring-
ing cheer to many heretofore bleak
and deserted homes in wealthy
neighborhoods where impish gurgles
and tiny hands were never known.

"Most people who come to adopt
our babies care very little about pre-
dictions for the child's career," Mrs.
Larsen says.

"What they want is the baby
something to gladden their lives
and give them a motive to live for."

"Of course we demand the strict-
est sort of references before final

adoption is sanctioned. And all our
foundlings are placed in homes
where the environment and opportu-
nities are beyond questioning."

Just now boys and girls are run-
ning neck and neck in the race for
popularity.

Also there are three millionaires

and quite a number of embryo art-
ists still on hand.

PULLMANS PILED UP ALONG TRACK

Derailed When Train Hits Auto Near Columbus

13 PERSONS IN HOSPITALS

Three Occupants of Motor Car Are Mangled

COLUMBUS—(Associated Press) Six persons are dead and thirteen are in hospitals more or less seriously injured as a result of the wrecking of westbound passenger train number 11 on the Big Four railroad, just north of here, this morning.

The train, one hour late and traveling at a high rate of speed, struck an automobile at a grade crossing just north of the city. The automobile was demolished and the engine and one car left the tracks when the engineer, Andrew Green, applied the airbrakes. The train ploughed along the right of way for almost a hundred yards and the engine and four of the steel Pullman cars were piled up along the right of way.

AUTO OCCUPANTS KILLED
The three occupants of the automobile, Mrs. F. S. Heminger, of Columbus, and her two children were instantly killed. The other deer included two of the train crew, Earl W. Wilson, fireman of Columbus, and J. W. Kles, a fireman from Cleveland, and Horace Holbrook, a Warren, Ohio, publisher.

While the number of injured in local hospitals was only 13, a number of other persons were badly shaken up. They received surgical attention at the scene of the wreck and were brought to Columbus on a roller train and continued their journeys.

The Big Four right of way was not expected to be cleared until night while traffic was interrupted for a time on the Pennsylvania tracks which are adjacent at the point of the wreck.

SCENE OF WRECK

The engine struck the automobile at Oakland Park-av, where the view to the north, the direction from which the train was coming, was obscured by the office building of the Clintonville Lumber Company. The automobile, which was almost across the tracks, was carried for a distance of 100 yards and its occupants, killed by the crash, were scattered along the tracks, the two children being thrown clear shortly after the impact and the mother being carried an entire city block. Her body was found in a mass of twisted wreckage in front of the locomotive.

The engine and at least one of the steel Pullman cars of which the train was entirely composed, left the rails immediately after the crash and ploughed along thru the crosses until the engine and four of the coaches toppled over along the right of way. The engine was almost demolished and one of the coaches was tossed across the right of way of the Pennsylvania railroad which is adjacent to the Big Four tracks.

According to Grover De Long and Walter Eppes, employees of the lumber company, the automobile which was equipped with side curtains, started across the tracks, the driver apparently not seeing the train. A deafening crash followed and the train passed by in a cloud of dust and flying splinters.

"We didn't realize what had happened," De Long said, "we were unloading a car of lumber and dropped our work and ran down the track. We found the Heminger boy dead about fifty yards from the crossing. The girl was farther along. We found Mrs. Heminger under the pilot of the engine."

"When we reached the coaches which had overturned, people were crawling out like ants and we immediately started to bring out the seriously injured. It all happened so quickly that I can scarcely remember what happened."

LICQUOR FREELY USED AT UNIVERSITY SOCIALS

COLUMBUS—Suspension of two boy and two girl students from Ohio State University for drinking has brought to light the fact that state prohibition and narcotic agents have been conducting investigations of many fraternity houses and drug stores in the university district and downtown restaurants frequented by students. Many social activities at the university also have been under surveillance, it was stated by inspectors who charge that very few are held without liquor being freely used. Girls as well as men, they say, are violators of the prohibition laws.

Assistant Prohibition Director Evans stated that university students who heretofore has escaped arrest in downtown cafes and restaurants when raids were made, on the plea that they would be expelled from the university if arrested, will be shown no leniency hereafter. He declared that not only would such students' names be sent to their parents, but that they would be arrested and prosecuted which will mean their expulsion from school.

REDS HURL DEFIANCE AT GOVERNMENT

Big Street Parades Held Nightly in Mexican City

ALL TRAFFIC IS HALTED

Marchers Yell for Lenin and Trotsky

VERA CRUZ, Mexico—Premier Leonine of Soviet Russia and Heron Proal, a Gaumansan, are the two protagonists of bolshevism most reverent in this city, an acknowledged hold of radicalism and red activity in the republic of Mexico. Proal is an agitator who is now in jail here awaiting trial, charged with inciting riot and rebellion against federal forces some six months ago. He is buried as a martyr, and from his prison cell continues to direct his extremist campaign which included open revolt against the government as a minor proposal.

Radicalism in its raw state may be seen here every night when parades varying in number from 300 to 3,000 march thru the streets, singing revolutionary songs, jeering at spectators on the sidewalk, yelling for Lenin, Trotsky and the revolution, and generally defying either city or state government to hale them. All traffic is stopped and for at least an hour each night downtown Vera Cruz is turned over to the bolshivists.

The nightly parade is a showy and spectacular thing. Far down the street the marchers are heard coming, band blaring, voices raised in song. They round the corner and one sees an expanse of flaming banners—all of them solid red and bearing legends of adherence to bolshevism and extolling Lenin and Proal. Men, women and children join in carrying the banner, and at regular intervals the music ceases to permit the captains to lead their cohorts in loud "vivas" for things radical.

RED FLAGS IN EVIDENCE

By day, the evidence of bolshevism are only slight less marked. A ride thru Veracruz discloses hundreds of houses decked with red flags. The pictures of Lenin and Proal in red frames and encircled by flaming banners are often found above the doors. Many enthusiasts have painted the entire house in red. For the most part these decorations indicate that the inmates belong to the "Tenants' Union" which several months ago decided that no rents would be paid in view of the fact that the landlords refused to reduce them to a figure acceptable to the union. It is said that there are at least 2,000 members of the union hero who have paid no rent for months. The question has been checked up to President Chiriquo who has indicated that he is not sympathetic with the tenants.

Every branch of the working class represented in this city is unionized. A former steward is now mayor of Veracruz. The stewards are the strongest, and recently succeeded in getting up port activities by strike, causing immense losses to the city strikes and boycotts are constant threats here. Demands are made of merchants and industries, and if they are not met, no matter how unreasonable, labor refuses to work or buy. Numerous employers have closed down shop and, according to a statement made to the correspondent by a reliable source, Veracruz business has decreased 40 per cent within the past year.

To meet the situation the merchants of the city are attempting counter organization. An effort is being made to secure the signatures of 420 business men to a protective agreement. Under the plan, if exorbitant demands are made on any member and strike or boycott is threatened all of the affiliated members will close their places of business. It is recognized that the only way this agreement could be made effective is to secure 100 percent adhesion.

It is an open secret that the city government of Veracruz and the state government at Jalapa are not decidedly antagonistic to radical activity in this port city. The one big check against wholesale aggression is the federal government which is always ready to stop untoward events. It was a clash between the radicals and federal soldiers that landed Heron Proal in jail, although many persons here feel that his work is more effective now than it was before his arrest. He has even syndicated the prisoners and on a recent national holiday succeeded in staging a celebration, aided by smuggled liquor, that almost ended in a jail delivery.

The newspaper "El Dictamen," one of the oldest in the republic, has been threatened with destruction many times and several weeks ago an attempt was made to force the editor to suspend publication following a clash with the governor of the state. It is understood that a hint from the national palace in Mexico City caused the governor to reconsider.

EASTER GREETINGS ADD TO FLOW OF MAIL HERE

Normally high flow of mail thru the Lima postoffice has been augmented by Easter greetings. Postmaster A. E. Gale said Friday. The season's best wishes are flowing in and out of Lima by the hundreds, he stated.

The parcel post department is working at top speed to handle the increased Easter business. The department has been deluged with packages, many of them containing flowers.

HEAVY HAULING CHARGES BRING ARREST OF FOUR AKRON TRUCKMEN HERE

Initial arrests of the year were made Friday, under the law prohibiting heavy hauling on soft country roads, when Sheriff Harvey B. Crosson, took four Akron truck drivers into custody. They are: John Kane, 30; Tom Briggs, 35; Neil Harris, 18 and Harry Roberts, 20.

The drivers pulled into Lima from the north, over the Dixie Highway. There had two large 10-ton trucks pulling trailers of equally mammoth proportions.

The vehicles are said to have pulled thru near hub deep on portions of the Beaverdam-Bluffton tour. The drivers were hauling 19 rooms of hotel furniture from Akron to Sidney. The trucks and trailers are the property of the City View Van & Storage company, Akron.

Weight of the trucks and trailers is given as 28,480 pounds for one and 21,436 for the second outfit.

The loads are far in excess of limit fixed by Surveyor Walker.

Suit will be entered against the concern for the damage done. The four drivers were released on security.

The penalty which may be imposed for the offense is a fine of \$25 to \$500. Police co-operated with Sheriff Crosson in apprehending the truckmen.

An explosion of escaping gas blew a tottering brick wall into the street and buried a score of firemen.

Julius T. Spaniar was instantly killed and six others were badly hurt by the falling bricks. Other firemen were burned while rescuing occupants of the blazing tenement.

Clouds of smoke poured past the Bellevue hospital, a block and a half away and the nurses had difficulty in quieting hundreds of patients.

The blaze started in a four story brick factory occupied by a laundry and several paper box concerns and spread to the five story building occupied by the Triangle Sheet and Tin Company.

Twelve families in adjoining houses fled to the street in their night clothes.

A hospital ambulance was smashed by falling bricks and a surgeon was slightly injured.

When the fire was checked six buildings and the two upper floors of a tenement had been destroyed. Estimates of the loss ranged from \$500,000 upward.

POLICE PUZZLED BY CAMERA

Missing Gift is Found in Mullin Home, Officers Say

A camera, which had been shipped from Holman & Company, Chicago, December 18, 1917, to G. W. Rower, 619 E. Market-st, was ordered it as a Christmas present, was found Friday among goods taken from the home of Mrs. Besse Mullin, 602 N. Main-st, police say. Mrs. Mullin is held to the grand jury under a bond of \$1,000, on a charge of grand larceny.

The camera was packed in a cardboard box with an order made out to Rower, dated December 18, 1917, inside the box. The amount of the sale was \$5, with a war tax of 15 cents. Across the bill was a notice of war tax to be collected on account of act passed October, 1917.

According to Rower, he was in the Windsor Jewelry store Friday discussing the case of Mrs. Mullin, when the clerk asked if he had ever ordered a camera that he had not received. Rower thought of the time he ordered the Christmas present that never came, altho the company insisted that it had been shipped on time. He went to the police station to identify the camera.

The bill inside the box with his name on it was sufficient identification, police hold.

Mrs. Mullin was charged with shoplifting and nearly all of the goods found in her home, according to police, have been identified by owners of stores in Lima and Toledo.

How she came in possession of the camera, which was shipped by mail, is puzzling police. This evidence will be presented before the next grand jury along with the charges of the alleged shoplifting, police say.

THOUSAND DOLLARS IS GOAL SET FOR HOSPITAL TAG DAY EVENT SATURDAY

Final plans for the annual tag day for the District Tuberculosis hospital have been completed and the various committees will get into action Saturday with the determination to raise at least \$1,000 during the day.

Headquarters for the local committee, of which Mrs. E. W. Stumpf is chairman, have been established at the Hoover & Roush store, from which the activities of the day will be directed.

Other committees will work in other towns in the district, assisted by boy scouts and camp fire girls.

Mrs. H. N. Wrigglesworth and Mrs. John Fllobell will direct the campaign at Delphos with the assistance of Mrs. George Stalkamp. Mrs. O. Durkee and Mrs. J. S. Steiner will direct the work at Beaverdam and Bluffton respectively. Mrs. J. G. Bogart is general chairman of the county work.

Proceeds from the tag day will be used this year for the purchase of X-ray apparatus, which will complete the hospital's equipment to treat tuberculosis.

Members of the woman's board of managers visited the hospital Friday afternoon for a final inspection before the tag day.

CHARGED WITH FIGHTING

Thomas Oshock, 44, rear of 653 Union-st, was arrested Friday on a charge of disorderly conduct, by fighting. Police say the fight resulted from an argument over a woman. When arrested, Oshock had \$47.61 on his person. He will appear in police court Saturday morning.

TRIO FINED

Three traffic violators were fined \$1 each when they appeared in police court Friday. They were: Walter S. Smith, 420 S. Jameson-av, parking car in safety zone; Elmer Sterling, 438 S. Central-av, no tail light; A. H. Reman, 633 S. Baxter-st, parking in front of a water plug.

NO CLAIMS FILED

Hearing called by the county commissioners Friday to fix compensation and damages on the Schick ditch in Richland-tp was unattended Friday. No one appeared to file a claim.

MOUNT VICTORY BANKER DIES

Body of Edward J. Maire, Lima oil operator, who died Monday at his winter home in Miami, Fla., arrived in Lima at 11:55 a. m. Friday and was taken to the residence, 564 W. Market-st.

Funeral services will be held Saturday at 2 p. m. at the home. Rev. Kirk O'Ferrall, formerly of Lima, now of Cleveland, will have charge of the services. The body will be placed in the Maire mausoleum in Woodlawn cemetery.

Active pallbearers will be Dr. Forster Robinson, Dr. C. D. Gamble, Dan Morris, Bruce Apples, Theodore Roush, Daniel Minsinger, Dr. Butler and Ray Ebding.

Honorary pallbearers chosen are: J. C. Lineman, Judge Phil M. Crow, John Neuhauer, Earl Marmen, D. H. Mooney, F. E. Harman, W. L. MacKenzie and J. W. Halthill.

GOLD WAVE DUE FOR EASTER

Will be Fair, However, Washington Forecaster Says

WASHINGTOM — (Associated Press) — Two firemen were killed and 15 others injured, several seriously today while fighting a blaze that destroyed two factories in East 26th-st and wrecked two floors of an adjoining tenement and business house.

An explosion of escaping gas blew a tottering brick wall into the street and buried a score of firemen.

Julius T. Spaniar was instantly killed and six others were badly hurt by the falling bricks. Other firemen were burned while rescuing occupants of the blazing tenement.

Clouds of smoke poured past the Bellevue hospital, a block and a half away and the nurses had difficulty in quieting hundreds of patients.

ADVENTURERS WIN HIGH PLACES

All Sorts Manage to Get Into British Politics

ELECTED TO PARLIAMENT

Some Serve in Commons, Then in Prison

LONDON—(Associated Press)—All sorts of adventurers seem to be able to get into British politics and even to secure elections to parliament.

Trebitsch Lincoln, a German, won the affections of the Liberal party and represented a British constituency in the Commons just before the war. Horatio Bottomley, the most spectacular swindler England has produced for years, left the House of Commons last summer to serve a seven years' term. George Augustus Jennings was not so fortunate. He polled six thousand votes as an independent candidate in the London constituency of North Paddington at the recent election. He made a false step during the campaign, however, and recently he was sentenced to serve four years at hard labor.

Every candidate for the House of Commons, as an evidence of good faith, is obliged to deposit the sum of £150 with the election officers.

This amount he forfeits if he fails to poll a certain small percentage of the votes cast. Jennings gave a check for this £150 on a London bank. Although he was not elected, he received many more than the requisite number of votes. In the regular course of events his check would have been returned to him and all would have been well, but an unforeseen complication arose. Jennings had creditors who secured a court order restraining the election officers from returning the check, and established their claim to the money. When the check was sent to the bank by the officials it came back with the declaration that Jennings had no account there. It developed that he had given other bogus checks to various people to meet his campaign expenses.

After the jury had returned its verdict of guilty, the police told the judge the story of Jennings's life. Under the practice of the English courts such evidence cannot be introduced until the jury has passed upon the case, the idea being that testimony of past misdeeds would prejudice the jury against a prisoner. Jennings had served terms for similar financial misdeeds in other parts of the United Kingdom, and for some years he had been a shining light in the upper stratum of London crookdom.

The Evening News thus describes the candidate: "He wore an eye glass. He wore the silk hat, the morning coat, the white spats of the blameless life. He arrived in the constituency in a Rolls-Royce motor car, and with a Rolls-Royce man never all his own."

Before taking the field as an Independent candidate Jennings had flirted with both the Lloyd-George and the Asquith wings of the Liberal party, and nearly persuaded each of them to take him up as a candidate. Dartmoor prison is not likely to prove as congenial a club for Jennings as would the House of Commons.

HAVE DARK HAIR AND LOOK YOUNG

Nobody Can Tell When You Darken Gray, Faded Hair With Sage Tea

Grandmother kept her hair beautifully darkened, glossy and attractive with a brew of Sage Tea and Sulphur. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect. By asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this old-time recipe, improved by the addition of other ingredients, all ready to use, at very little cost. This simple mixture can be depended upon to restore natural color and beauty to the hair.

A well-known downtown druggist says everybody uses Wyeth's Sage and Sulphur Compound now because it darkens so naturally and evenly that nobody can tell it has been applied—it's so easy to use, too. You simply dampen a comb or soft brush and draw it thru your hair, taking one strand at a time. By morning the gray hair disappears; after another application or two, it is restored to its natural color and looks glossy soft and beautiful.—Adv.

GIRL DEPUTY WINS WITH SMILE

Prisoners Stay Put, Too, in Her County Jail

WELLSBURG, W. Va. — (Special) — Deputy Sheriff Mildred Evangeline Stephens, assistant turnkey of the Wellsburg jail, is armed with two weapons.

Her smile and —

The .32 revolver she always carries in her shoulder holster.

And many a prisoner has tried to escape since she took office!

Perhaps she looks a trifle too dainty to be rough with husky prisoners, but other deputies at the

Wellsburg jail say Deputy Stephens has just as much control over the county's guests as anyone in like position in the Panhandle.

Ever since her husband, Sheriff J. W. Stephens, took office, Nov. 7, 1922, West Virginia's only "gun-toting" deputy has reigned as chief assistant to John Ralston, Sheriff Stephens' bookkeeper. On many occasions Deputy Stephens is alone in charge of the jail.

More than 200 prisoners passed thru the Wellsburg jail in the course of a few months, recently, having been arrested for complicity in the miners' armed march at Cliftonville July 16, 1922, and for having been in the party which slew H. H. Duval, Sheriff Stephens' predecessor.

PEDIGREE FOR EGGS

LONDON — Sir William Bird says he'll introduce in parliament a bill making it compulsory to place on every imported egg a stamp giving the date of the egg's birthday.

Don't delay fighting constipation with BRAN that is ALL BRAN!

When constipation flashes its signs of sickness into your eyes and checks; into your breath, your brain and your appetite, it is absolutely necessary that you beat it off! Toxic poisoning stands close by; Bright's disease and other dangerous diseases await their turn!

The remedy that nature offers is the simplest and most effective—Kellogg's Bran, cooked and kreamed, is ALL BRAN! And it is ALL BRAN! It is ALL BRAN you need when you start to fight constipation. You can't afford to delay a minute and you can't afford to use half-way measures with foods that contain a percentage of bran. Your physician will recommend Kellogg's Bran because it is not only effective, but because it is delicious. Why—you will like it as much as we do.

'Tears, Idle Tears,' Inspiration Of Scribe's Moving Philosophy

Sob Gland May Be Stimulated by Feather or Pickax, He Finds

ALL OF US CRY SOME TIME

But Some More Than Others, and for Different Reasons

If the fellow who invented tears probably sorrowed b. the loss of his last dollar or overjoyed because he inherited some, knew what he was doing, maybe we wouldn't have tears now.

Noah Webster tells us that tears come from tickling the lachrymal glands. Some people don't have to go very far in order to get a good tear crop worked up, but others could have the aforementioned glands tickled with a pickax and then they wouldn't cry.

Of course there are two sides to tears, just like everything else, a good side and a bad side. The good side is when someone cries over nothing and the bad side is when one cries over something.

When Johnnie thinks he can go to the picture show some at noon and then busts the cellar window with his ball, a sudden influx of

tears is noted. When dad relieves his arm of his only daughter, she cries with joy and we don't know how dad cries. He probably cries warning to the groom, saying that she swings a hefty rolling pin.

Disappointment always brings about tears, especially if it is of the heart breaking kind. For instance manufacturing business. It sounds

Manager Bingham might have tears when he thinks of city finances. And then some of the pessimistic folks have tears when wife serves a cold dinner.

"Tears are the outburst of extreme emotion," according to Don John of John's music store. "It is

war-cry—first a big dose of 'hawing,' then a generous supply of laughing. Fido often gets the chance to laugh while tears are being shed by his toothful master, due to the use of the bottle by doggie.

And then babies aren't the only folks who have use for tears. Everyone from the infant to the octogenarian has a use for tears at some time. When the beautiful young girl is expecting a proposal almost any time and is disappointed, she and mother and sister shed a few tears and hope that the

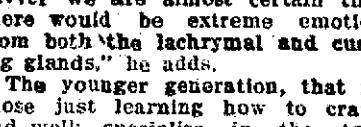

nature holds better luck. Of course the bad thing about tears is that they show sadness and that is most

FARM AID SEEN IN MOVE

Linked With Policy of New
Credit System

ST. AUGUSTINE, Fla. — (Associated Press) — Congress having moved, just before adjournment this month to assist to a greater degree the agricultural and livestock interests of the country. President Harding it was said today by members of his vacation party, is giving considerable attention to the farm situation.

The prompt selection of Henry M. Dawes, of Chicago, to be comptroller of the currency, which was announced last night was interpreted by some of those close to the president to be an indication of his desire that the government render all possible aid to the farmers and livestock men.

As comptroller of the currency Dawes, who is a brother of Charles G. Dawes, a former comptroller and later budget director, will have supervision of the formation of the agricultural credit corporation provided for in the recently enacted Copper-Leinenroth-Anderson bill.

Pending the time when such credit institutions can begin to function, the war finance corporation will continue to make agricultural and livestock advances and the policies to be pursued by this government agency were the subject of a conference here this week between the president and Fred Stark, acting manager director of the corporation. POLICY OUTLINED

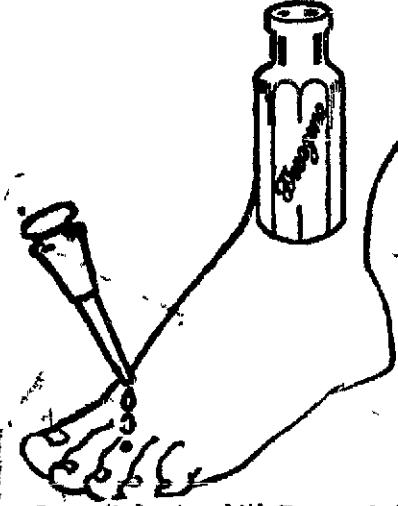

Setting out the policy of the finance corporation respecting loans to farmers and cattle growers, in reply to many inquiries, Stark issued the following statement:

"The policy of our board is to carry out in spirit and letter the purpose and intent of congress in extending the authority and life of the corporation. The corporation has made advances for agricultural and livestock purposes, thru banking and financial institutions, livestock loan companies and cooperative marketing association, and it will continue to do so until the end of March 1924, on the same basis as heretofore."

"Since August, 1921, nearly \$291,000,000 have been distributed upon adequate security and nearly \$156,000,000 have been repaid, leaving \$85,000,000 outstanding about ten days ago. Heavy payments are being made daily and we do not anticipate many new applications for funds. But wherever the interests of the agricultural and livestock classes may be served in a manner consistent with the provisions of the law, it will be the purpose of the board to make advances under the usual safeguards. It is not intend-

DELPHOS NEWS

**Frisky March
Zephyr Lifts
Top Off Auto**

DELPHOS SOCIETY

Dr. D. J. Clark, Delphos, is minus a part of his auto top, the result of an ungentlemanly zephyr taking a drive at him Thursday while he was driving to Delphos from Paulding, where he had gone account the illness of his father, J. J. Clark.

The doctor was riding serenely along when the March Lion, chafing closely along on the starboard side, lifted the auto top with one mighty sweep and neatly removed Dr. Clark's glasses.

After regaining his belongings, he scolded before the wind and "ache" port safely, albeit a cast many rueful glances at the result of the playfulness of March.

GENERAL OBSERVANCE OF GOOD FRIDAY AT DELPHOS; BUSINESS HOUSES CLOSE

Delphos people gathered in their churches Friday morning and afternoon in observance of Good Friday. Members of three Catholic societies, the K. of C., C. K. of O. and C. K. of A. assembled at 1:30 p.m. and marched to St. Joe's church in a body, for prayer hour between 2 and 3 p.m.

Business houses were closed between 12 and 3 p.m. Schools were not in session.

No mass was read in the morning at St. John's church, Good Friday being the only day of the year on which this ceremony does not take place. Friday was a triple with special devotions in commemoration of Christ's death on the cross.

Extraordinary ceremonies will also take place Saturday morning unlike Thursday and Friday, however, as vespers will begin at 7 a.m.

The Lenten season comes to a close at noon Saturday.

Evening services Friday will be held in three Delphos churches. De votions will begin at the Catholic and Lutheran churches at 7:15 and in the United Brethren at 7:30.

FIRST APPLICANT FOR DELPHOS PULPIT WILL BE HEARD ON SUNDAY

Rev. William M. Mackay, Mc Connellsville, will be the first minister who will preach at the Delphos Presbyterian church as an applicant for the pastorate, to succeed Rev. George H. Gibson, who left February to fill a pulpit in Detroit.

He will preach April 8. Rev. Mackay preached previously at Delphos in a supply capacity.

Many ministers have occupied the pulpit since February 1, but all so far have been supply. Rev. Harry A. Fast, Bluffton seminary, will conduct Easter services.

The Delphos congregation must act on Rev. Mackay's application before anybody else is considered, according to rules governing such procedure.

WORK BEGINS ON DELPHOS BALL GROUND FOR SEASON

Preparations were to be made Friday to begin work on the Cleveland-st baseball diamond, where the Delphos high school team will meet its foes this season. Extensive alterations are needed, owing to the diamond having been plowed up last fall.

The team has had no opportunity to practice on a regulation diamond, confining its workouts chiefly to light drills on the Jefferson school grounds.

The pair of pitchers, Eric Planer and Carol Holmes, have taken such workouts as are practicable, but they will not get down to real work until the weather takes a turn for the better. Coach Eugene Gorrell will not risk "charley horses" in their pitching arms.

Practice has been postponed at the Cleveland-st grounds until Monday afternoon, Coan Gorrell announced Thursday night.

DELPHOS WOMAN LEAVES ESTATE TO RELATIVES

Mrs. Louisa M. Best, a resident of Old People's Home in Toledo, will receive a \$400 legacy, under terms of the will of her sister, Mrs. Matia E. Goetz, who recently died at Delphos. The document was probated before Judge J. H. Hamilton, Friday.

Legacies of \$200 each will go to the decedent's five children. They are Albinus Goetz, 421 S. Jackson-st; George William, Charles and Cecilia Goetz, of Delphos. Total value of the estate is \$1,500. Frank Kurker, Walter W. Trentman and Thomas Carder were named as appraisers.

EASTER MARKET TO AID DELPHOS HIGH BALL TEAM

Purchase of equipment for the Delphos high school baseball team will be made possible thru an Easter market to be held Saturday at the Jettinghoff & Beckman furniture store, W. Second-st.

All kinds of delectable pastries, canned goods and other articles will be on sale throughout the day. High school pupils will take turns in conducting the market.

Advance orders are being received in large numbers. A "first come, first served" policy will be maintained, Principal S. C. Warner announced Friday.

BEEKERS HEAR ADDRESS

Beekeepers from Van Wert, Lima, Ottawa and other surrounding towns were present at an address given Thursday night in Delphos at the high school auditorium, by G. H. DeMuth of Medina, on the subject of comb honey, before the Tri-county Beekeepers' association.

POLICEMAN SHOT IN GUN BATTLE

New York Officer Victim of Mistaken Identity

NEW YORK—(Associated Press)—A tragic victim of policemen's zeallessness to duty Detective John Cordes was in a critical condition today in Presbyterian hospital with four bullets in his body while alongside him lay an 18-year-old bandit, James Whitten, the cause of one of most spectacular street gun battles here in years.

It was a case of two members of the force, strangers to each other, one a detective, the other a police sergeant, both in plain clothes and both off duty, who mistook his fellow for a bandit. The sergeant, James McDade escaped unhurt.

Later in the afternoon a delicious luncheon was served by the hostess. The room was beautifully decorated with flowers and every one was given a little Easter favor.

The next meeting will be in two weeks with Mrs. Charles Grimes, W. Third-st.

2 MEN KIDNAPED

Price War in Cleaning Business Results Seriously

CHICAGO—(United Press)—Fred Weiner, proprietor of the Homal Cleaning Works and Fred Butrick, a night watchman, were kidnapped and establishment was set on fire by five men today as part of price war.

About \$25,000 damage was caused by the fire. Weiner told police the men entered, bound and gagged him and Butrick, soaked clothing on tables with inflammable acid, and after igniting it, threw both of them in an automobile. After driving a mile the incendiaries dumped both victims into the street.

Weiner said an association in his trade had been trying to force him to adjust prices. He was kidnapped and beaten by rivals a few days ago in connection with the same controversy, he declared.

FUNERAL SERVICES FOR EDWARD PORTER, SATURDAY

Dr. Bryon W. King, head of the King School of Oratory at Pittsburgh may be secured to judge student orations in the Northwestern Ohio High School Oratorial contest to be staged here at the Grand Opera House, Kenton, on May 11.

Sixteen schools have entered contestants for the honor won by Gilmore Hiett, of Kenton High School, at last year's meeting in Delphos.

In addition to the widow, he is survived by two sons, Walter Porter, of Lima; Roscoe Porter, of Circleville; four daughters, Mrs. Charles Reams, North Lewisburg; Mrs. Merle Snyder, Lima; Mrs. Arthur Langhorst, Muskegon, Mich.; Miss Shawnee Porter at home.

PAYMENT STOPPED ON CHECK LOST IN DELPHOS

Payment has been stopped at banks on a check for \$200, was a part of the valuables lost by W. H. Noble, special A. C. and Y. Railroad agent in Delphos.

Noble was on relief duty at the Delphos depot after departure of O. R. Bowsher. He left last week and discovered his loss before going to Plymouth, where he was assigned to relief duty.

A number of railroad passes were contained in his pocketbook, police say, but it is impossible for anyone but himself to use them. He had \$121 in cash in the pocketbook.

DELPHOS ASSESSORS BEGIN DISTRIBUTION OF BLANKS

Delphos and Washington-tp assessors who received their supplies and instructions at the Van Wert-co courthouse have begun distribution of blanks among taxpayers for certification of personal effects. These will later be turned back to the assessors, for checking up.

Henry Bergfeld is assessor in third ward and Ed Kimball, fourth ward, Delphos, while Ed Runyan has charge of Washington-tp east.

DOMAHEY DEMANDS ACTION ON BOARD APPOINTMENT

Governor Sends Special Message to Legislature

REORGANIZATION SOUGHT

Tells of Asking Resignation of Utility Members

COLUMBUS — (Associated Press) — Advising the general assembly of his action in requesting the resignations of State Utilities Commissioners George T. Poor and Frank B. Mullar, Governor Domahay today asked that the senate approve or reject the appointment of William A. Hopkins, of Cincinnati, to the commission as its Democratic member.

The resignations of the two Republicans, the governor's message said, were "asked in pursuance of my pledge to the people," and because their "policies have been and may be expected to remain out of harmony with my purpose to reorganize the commission so that it may give a square deal to both citizen and utility."

CONTROL PARALYZED

The commission as now constituted "and its regulation of public utilities in recent years has paralyzed municipal control and reduced many of our cities to a condition of helpless rage or deadly indifference," the governor's message declared. It expressed the hope that the two Republican commissioners "may be public spirited enough to relinquish their positions in the interest of the people of Ohio who by reason of ratemaking decisions in recent years have lost confidence in the commission as now constituted."

The Democratic commissioner, Charles C. Marshall, whose term expired February 1, is still in office because of the failure of the senate to concur in the appointment of Mr. Hopkins, made three weeks ago. The governor directed attention to the fact that "until the senate confirms the appointment the present governor cannot have representation on the commission or be held responsible for any acts of the commission."

CAMPAGNA PLEDGE

"The appointment of a member of the public utilities commission to fill an expired term was the first step available to me in my efforts to reorganize the present commission as I had promised the people I would attempt to do. In my personal platform, issued and circulated during my campaign for the nomination last year and repeated subsequently in many public addresses during my campaign for election, I said I promise to make the Ohio public utilities commission function and give a square deal to both utility and citizen, or ask the general assembly to abolish the commission entirely and let the city council and other legislative boards, directly re-

The Easiest Way To End Dandruff

There is one sure way that never fails to remove dandruff completely and that is to dissolve it. This destroys it entirely. To do this, just get about four ounces of plain, ordinary liquid aragon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find, too, that all itching and digging of the scalp will stop instantly, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

You can get liquid aragon at any drug store and four ounces is all you will need. This simple remedy has never been known to fail.—Adv.

sponsible to the people, handle their own service contracts under general laws.'

"It is my purpose to carry out this pledge just as far as it is humanly possible for me to do. The senate has so far balanced my efforts to even place one new member on the utilities commission. In other words, the senate has presumed to become the appointing power, whereas the law places this in the chief executive."

MOOSE DICTATOR GETS GIFT OF CARVED OAK CHAIR IN INITIATION

Presentation of a handsome carved oak chair for the dictator's station was a feature of the initiation of a class of 25 candidates held by Lima Lodge 199, Loyal Order of Moose, Thursday night.

Probate Judge J. H. Hamilton, an active member of the lodge, was the donor of the chair, which was presented following the initiation ceremonies. The class of candidates inducted Thursday raises the total number of new members enrolled during the drive to 660. Total membership in the lodge is now more than 1,800.

R. R. Trubey was re-elected to serve as dictator for the third term it was announced. Other officers chosen are: E. M. Botkin, vice-dictator, for the third term; Clarence Swick, prelate, third term; Guy Breitinger, treasurer, third term; Harry Walter, secretary. Trustees were re-elected as follows: Jacob Miller, third term; Frank Blaukett and Ed Wentworth.

K. C. CARNIVAL TO OPEN SATURDAY FOR A WEEK

Elaborate decorations and brilliant lighting effects will greet Lima pleasure seekers at the K. of C. Carnival which opens Saturday night and continues until April 7.

The big fest will be opened with an illuminated parade starting at Main and Elm-st and winding up at the K. of C. building. The parade will start at 7 o'clock and a band concert will be given until 8. A parade and concert will be held every evening of the carnival.

The first floor will be given over to merchandise booths. Scrolled beaver board fronts adorn the booths and make them very attractive. On the third floor park plan dancing will be given with the Buckeye Novelty Orchestra furnishing the music.

The carnival will open Saturday night and close until Monday when it will start with a parade.

BOY, 15, PASTOR OF CHURCH

Believes in "Just Plain Bible Religion"

THOUSANDS OUT TO HEAR HIM

Has Congregation of Children at Los Angeles

By ROBERT A. DONALDSON
LOS ANGELES (United Press)—Master Wesley Flemming, 15, is starting on a career which may eventually lead to his stepping into the shoes of the Rev. Billy Sunday, noted evangelist.

Wesley has been officially appointed to fill the pulpit at the "Children's Church" at the Angelus Temple, which Aimee Semple McPherson owns, and at which she conducts her evangelistic services.

Wesley thus becomes America's youngest preacher who has conducted his own.

He recently preached his opening Saturday afternoon sermon before an audience of several thousand children.

He believes in "just plain Bible religion," without any frills, and has the knack of putting the Bible's teachings into language that young stars understand.

Wesley is a good-looking kid, little

and well-built, whom one would expect to see with a "mitt" playing ball in any vacant lot after school. When he preaches he wears school clothes—a grey belted Norfolk suit, and a shirt with a soft collar. His hair is tossed back into the same kind of pompadour that most young fellows of his age affect when "slicking up" for a party.

There is no empty oratory in his sermons, no rising and falling inflections of the sort indigenous to the grown-up ministerial profession. In a voice that has not quite changed, Wesley talks religion in the same manner that most boys talk about their school or their teams. His voice is clear and easily fills the large Angelus Temple.

"I just talk religion to the kids the same as I'd talk about anything else. I discuss what the Bible says just like we'd discuss a book at school. I like it, and it's easy for me. Most kids are bored by regular sermons."

A CHILDREN'S CHURCH

This was the idea in Aimee Semple McPherson's mind when she decided on a "Children's Church," to meet Saturday afternoon in the big Temple, and to listen to religion expounded by a boy of their own age.

The "Children's Church" is a new and unique institution. It is international. All the church offices are filled by children and grown-ups do not interfere. The choir is composed of 40 boys and girls. The church is attended by children from all parts of the city.

Wesley is the son of Mr. and Mrs. W. J. Flemming, of South Pasadena, Cal. He was born in Portland, Ore., and at the age of nine he had become greatly interested in religion, and began to preach in company with evangelists on street corners in Portland. He had success in

gaining converts, numbering among them many hardened sinners who were made to see the light thru his frank boyish appeal.

Between times, Wesley went thru grade school and two years of high school, and is now studying in the Evangelistic Training Institute. His interests outside of church work are those of the average boy of his age.

"I just talk religion to the kids the same as I'd talk about anything else. I discuss what the Bible says just like we'd discuss a book at school. I like it, and it's easy for me. Most kids are bored by regular sermons."

"My doctor told me about it and if I couldn't get another job I wouldn't give this one up for anything."

That is how many people regard Resinol Ointment. It is especially recommended for eczema and other itching skin troubles, but it is also excellent as a general household remedy for burns, scalds, chafing, cold sores, pimples, boils, insect bites, etc.

MISS HELEN KING daughter of Mrs. Etta L. King, E. Linden-st, will become the bride of John E. Reynolds, son of Mrs. J. D. Reynolds of Bridgeport, Conn., Saturday morning at 10:30 o'clock at the Epworth Methodist Episcopal church. The ceremony will be performed by the bride's uncle, Rev. M. M. Campbell of Richwood, who will be assisted by Rev. G. M. Baumgardner, pastor of the Epworth M. E. church. Miss King will be attended by Miss Marie Sweeney as maid of honor and Vernon Rossellman will act as best man for the groom.

Following the wedding ceremony, breakfast will be served at the home of the bride's mother, to the members of the immediate families and a few friends. Mr. and Mrs. Reynolds will leave during the afternoon for a wedding trip to Niagara Falls and other eastern resorts, arriving at Bridgeport, Conn., where they will make their home, about April 15th. Miss King's many friends regret that her marriage will take her from the city.

Dr. Charles Clark, superintendent of the Lima State hospital, spoke to the members of the Shriners' speare club, Thursday afternoon, at the P. B. Library. Dr. Clark told of the four general classes of patients under his supervision, and of their characteristics. He also spoke of the care of the insane and feeble-minded. Mrs. Julia Simpson read Browning's "Cathiban" on Seelbach, which was followed by a general discussion as to the character of Cathiban, led by Mrs. A. N. Wissler.

Mrs. Frank Stanford outlined the remaining programs for the year, which includes a talk and discussion of one of the principal characters of Shakespeare's "Tempest" a collaboration of French history with history of England, at the time of Shakespeare, brief reports on modern French writers and a talk by an outside speaker.

Miss Gae Morton, W. Wayne-st, welcomed a group of guests at her home, Friday afternoon, for an afternoon of bridge. The tables were placed in the living room of the house, attractive in their decorations of spring flowers. Five tables were filled for play and at the conclusion of the card games, a two-course tea was served by the hostess, assisted by her mother, Mrs. J. E. Morton. During the serving, little Miriam Morton, sister of the hostess, delighted the guests with readings and dances.

Guests of Miss Morton were: Misses Leona Collier, Gladys Mayer, Meredith Shifley, Esther Plummer, Marie Herrick, Dorothy Lawson, Mary Kerr, Eleanor Troutt, Aletha Ludwig, Elizabeth Douglass, Ruth Hawisher, Ruth Weisenthal, Katherine Baumberger, Ruby Gunther, Elizabeth Lamb, Ethna Swickard, Frances Lou Cunningham, Marian Johnston, Helen Baxter and Mary Churchill.

Mr. and Mrs. R. J. Patrick, Dorothy Welty of Cleveland, will arrive Saturday to be the guests of Mrs. Patrick's parents, Mr. and Mrs. Patrick's parents, Mr. and Mrs. Elias Welty, N. Collett-st.

Mrs. Mary Roberts, N. West-st, was hostess to a group of guests at a luncheon-bridge Friday, at the Lima Club. Mrs. Roberts honored Miss Caroline Tucker, guest of Miss Elizabeth Clark, and Miss Helen Schaad, who is visiting Miss Roberts, enroute to her home in Marion, from Chicago. The luncheon table was centered with a large basket of yellow jonquils, while white cups and place cards were orchid and yellow. Bridge was enjoyed in the lounge, throughout the afternoon.

Ralph Mackenzie, W. Market-st, has as his week-end guest, J. A. Anderson of Toledo, who is attending Ohio State university.

Mrs. W. C. Bradley, Shawnee, will welcome the members of the Altruist club Saturday afternoon, at her home. Mrs. C. F. Lynch will have a paper on "Modern Poets" and Mrs. Willard M. Pease will speak on the "Lincoln Mountain School." Roll call will be answered with bits of information concerning modern poets or the settlement schools in the mountains.

SUSIE SMART'S ADVICE

Dear Miss Smart:
PLEASE give me a little advice:

Papa is so nervous I can hardly do anything. He is always worried about me. Whenever I hear anything like the sudden closing of a door or something like that, I jump as if the world would end. Please advise what I can do.

(1) I have two wooden nipples, one trimmed in white and the other in black. How can I clean them?

(2) How is my writing?

(3) Is a girl of 14 too young to have a beau? Is it alright for a boy to accompany her home from the dance?

(4) I wish to clean them yourself, wash them in gasoline. If not, send them to a dry cleaner.

(5) Very good.

(6) Dear Miss Smart:

I am 12 years old and have been married one and one half years. My husband seems to treat me very cruelly. Nothing pleases him, he never does anything to make him happy. What do you think he thinks I should do? I don't want to break up the home and leave, as we have the sweetest baby, eight months old. Please advise what I can do to make things different and to have a happy home? Will they wear grey diapers this summer?

(7) EDNA.

Can't you have an understanding with your husband? Tell him how very unhappy you are, that you want to please him and make your home a happy one. If he treats you as if you are displeasing him, surely

with just one man until you are engaged to him. You are missing good times, I am sure.

LIMA MEN SCORE 2,671 IN A.B.C.

Elks-Bowlers Will Probably Miss Prize Money

MILWAUKEE, Wis.—(Special)—The Lima Elks No. 54, bowling

team, counted 2,671 in the 23rd annual tournament of the American Bowling Congress here late tonight. Their score, from present indications will fall short a few pins of finishing in the \$34,000 prize money. Failures to bunch strikes and bad breaks cost the Lima team a larger total. The five men rolled within a few pins of one another. F. Mitchel with 540, was high man. J. Goodrick, low with 502. The team had totals of \$76,864 and 931.

Lima bowlers will roll in the doubles and singles events tomorrow.

IN LIMA PLAYHOUSES TODAY

BY GERTRUDE GILLHAM

Charles Chaplin in "The Pilgrim" at Sigma

CHARLES Chaplin's first big feature production since "The Kid" will be the attraction extraordinary at the Sigma theatre for seven days beginning Saturday. It is First National four-reeler entitled "The Pilgrim" and presents Charlie minus his famous derby and cane.

The inimitable comedian has been a tramp, a soldier and a dude on the screen, but now he blossoms forth in the full gaiety of a parson. He plays the role of an escaped convict who exchanges his prison stripes for the clothing of an unsuspecting parson in swimming. But this deception brings the most exasperating complications down on the head of "The Pilgrim" for as a result he is compelled to take charge of a church in a small town.

New Version of "Tess of the Storm Country" Coming

DEVOUEES of the cinema art are going to have the opportunity of seeing "Tess of the Storm Country" again with that lovable little star, Mary Pickford, the picture she first made famous eight years ago. But in her new production, a United Artists release coming to the Lyric theatre Saturday, she will be seen the second time as Tess in an elaborated version of Grace Miller White's celebrated story. The "Queen of the Screen" re-created this beautiful character before the cameras at the Pickford-Fairbanks studio at Hollywood and the notable revival is now being presented internationally.

Miss Pickford, as the heroine Tess, is an impoverished resident of a lowly fisherman's village and her cabin is the last word in crude humdrum appointments. No carpets grace the floor and the furniture is of the tumble-down variety. Comforts in this squalid abode are scarce and

still more amusing situations arise when a crook, who had served time in the pen with the pseudo parson, comes to the same town, recognizes his old pal and worms his way into the social set.

A touch of romance and a dash of pathos have also been worked into the plot.

Several players who contributed to past screen successes of the famous comedian support him in "The Pilgrim." They are Edna Purviance, again his leading lady, his brother, Sydney Chaplin, Mack Swain, "Chuck" Reisner, Tom Murray, Phyllis Allen and Dinky Dean.

Like all of his starring vehicles, this was written and directed by Chaplin himself and according to preview reports, rivals "The Kid" and "Soldier Arms."

It is said Miss Pickford reaches

the zenith of her dramatic powers

in her interpretation of the character of this sympathy-winning and admirable heroine and many authorities proclaim it truly marvelous as an example of her incomparable ability to make people laugh one minute and cry the next.

In this epochal photoplay she is surrounded by a supporting cast of exceptional brilliance. Lloyd Hughes, in the leading male role, which was originally created by the late Harold Lockwood, and Gloria Hope as Teota Graves are especially good while David Torrence, Forrest Robinson, Joan Hersholt and Gus Saville give excellent performances.

O'Connor Sisters are heard in popular and croony songs and possess voices that blend prettily. Beautiful costumes and pleasing personalities add to the enjoyment of the act.

Herbert Lloyd presents "Much Ado About Not Much" as the third offering. He jests in a clever way about Lima and some of its citizens and distributes comedy wholesomely and genuinely throughout the entire sketch.

ESCAPE CHAIR BY PROVING ALIBI

Two Cleveland Men Acquitted in Murder Trial

CLEVELAND — (United Press) — A receipt and a black eye had saved two men from the electric chair Friday at Beaver, Pa.

Albert Lynch, alias George Burke, and Fred Hans, both former Cleve-

landers, late Thursday were acquitted

RULINGS BY COURT IN SUIT FOR MONEY ARE ATTACKED IN AFFIDAVIT

Rulings headed down by Judge H. W. Blachly, of Van Wert, in the trial of a \$122 suit filed by Charles G. Meyer, against H. G. Russell, are attacked in an affidavit filed by Russell Friday, charging that the court prejudiced the jury.

A sister of his, who lived in Cleve-

land, testified her brother had a black eye at the time of the hold-up. This testimony conflicted with de-

scriptions of the robbery given by the bank employees and resulted in a verdict of not guilty for Hans.

Vincent Sakraida, cashier of the

bank, was shot to death in the hold-

up on October 14, 1919.

and for was arrears in wages, due from Russell.

The court, however, according to the petition, seemed to think otherwise. Russell contends that Meyer had the right to draw checks for his salary and that he overdrawn. He holds that the money was out of his private account.

Judge Blachly, it is contended by Russell, took the view that it was corporation money that was drawn. Records show that a verdict for

\$112 was found for Meyer, now manager of the Arkraft Sign company.

The affidavit was prepared and sworn to by Russell in Calumet, Michigan. It was filed. It is believed, to lay a basis for reopening the litigation.

SON SHOT, LETTER INFORMS MOTHER

Lima Youth is Reported Killed by "The Black Gang"

BELIEVED TO BE IN NAVY

Letter Sent to Mrs. Emma Dickey From Arizona

A blackhand letter was received by Mrs. Emma Dickey, 251 S. Jackson St., stating that her son, Harry, 17, had been killed in Topack, Arizona, by blackhands, according to a complaint made to police Thursday night.

The letter was written on a small piece of tablet paper, in a scrawling manner and was properly addressed to Mrs. Dickey. It was postmarked Topack, Arizona.

The letter follows:

"Dear Mrs. Dickey:

"Harry, your son is dead. I shot and killed him for stealing my wife."

"Written by

"THE BLACK GANG."

ABSENT SINCE MAY

According to the complaint, Mrs. Dickey stated that she has a son, Harry, who left home in May, 1922. He sent papers for her to sign from Montana, which would enable him to join the navy. The last time she heard from him was three months ago, when she received a picture of the ship to which he had been assigned. She has not heard from him since that time, until the letter telling of his death was received, she told police.

The letter was turned over to the police with the request that they get in touch with the authorities in Topack, to learn whether or not the information is true.

Police here have sent a telegram to the authorities at Topack, for further information covering the letter.

IF BACK HURTS FLUSH KIDNEYS

When your kidney's hurt and your back feels sore, don't get scared and proceed to load your stomach with a lot of drugs that excite the kidneys and irritate the entire urinary tract. Keep your kidneys clean like you keep your bowels clean, by flushing them with a mild, harmless salt which helps to remove the body's urinous waste and stimulate them to their normal activity.

The function of the kidneys is to filter the blood. In 24 hours they strain from it 500 grains of acid and waste, so we can readily understand the vital importance of keeping the kidneys active.

Drink lots of good water—you can't drink too much; also get from any pharmacist about four ounces of Jad Salts. Take a tablespoonful in a glass of water before breakfast each morning for a few days and your kidneys may then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with Lithia, and has been used for years to help cleanse and stimulate clogged kidneys; also to neutralize the acids in the system so they are no longer a source of irritation, thus often relieving bladder weakness.

Jad salts is inexpensive; cannot injure; makes a delightful, effervescent Lithia-water drink which everyone should take now and then to help keep their kidneys clean and active. Try this; also keep up the water drinking, and no doubt you will wonder what became of your kidney trouble and backache. By all means have your physician examine your kidneys at least twice a year.

We Stop Falling Hair

Grow New Hair in 90 Days or Your Money Refunded

Costs Nothing
Unless we grow hair.
The Van Ess 3-bottle treatment is absolutely guaranteed by the manufacturer.
The warrant is signed by Dr. Van Ess. All you require is his signature showing you have purchased a bottle of the treatment. If it fails, we refund your money, and you have no risk making this test.

This New Way
Science discovers falling, lusterless hair due to simple infection (Sebum). Now quickly overcomes it.
Hair actually grown on 91 heads in 100.

This is to offer you new hair—lustrous, beautiful, attractive—or money refunded under our 90-day treatment plan.

It offers, too, to stop falling hair. If we fail, the treatment costs you nothing. Your own druggist signs the guarantee. Hence we assume the risk.

Thousands of women have made this test. Results are amazing. The charm of wonderful hair is now available to any one who chooses to have it.

The Infected Sebum in Your Hair
Sebum is an oil. It forms at the follicles of the hair. Its natural function is to supply the hair with oil.

But frequently it becomes infected. It cakes on the scalp; clogs the follicles and plugs them. Germs by the millions breed in
